

SOCIETY FETES THE QUEEN AT CASINO DINNER

Marie and Dawes Share
Thrones at Party

BY GENEVIEVE FORBES HEY

Queen Marie, brilliant victim of the competition, went to her apartment at 7 o'clock last evening, a worn-out sight. She came out again two hours later, a queen in a silver gown, ready to take her place in one of the two throne chairs at the important, private, happy dinner given for her at the Casino club.

The other throne was for Vice President Charles G. Dawes. The dinner was given by the executive committee, each member of which was permitted to invite a few guests. Three women, Mrs. Kellogg Fairbank, Mrs. John Alden Carpenter and Mrs. Joseph G. Coleman, set the stage for the party which included some pretty dresses as decorations, and some merry and interesting conversation.

The rest, it was private. And if the queen, far from the microphone, exchanged a quip with Dawes, or Meeker, or Morris, or any of the other guests, it was as a woman with a facile phrase and not as a government's representative that she was speaking.

Earlier in the evening, however, it was as the wife of Roumania's ruler that she had spoken when she authorized Maj. Stanley Washburn, her aide, to deny, most emphatically, that her visit was to have a financial reflex in Roumania.

As a matter of record, Maj. Washburn declared, the queen takes back to Bucharest but one bit of largess for her people. That is a five dollar bill which an old woman in Philadelphia shoved into her hands, importing her to take it back to the needy in Roumania.

Denies Talking of Loan. "Her majesty authorizes me to state," Maj. Washburn declared last night after a conference with the queen, "that since the moment she first put foot on American soil until the present she has not discussed loans or the possibility of loans with any person."

Likewise the queen denied through Maj. Washburn that her decision to shorten her trip was the result of political rather than personal pleadings. The only messages which Queen Marie had received from King Ferdinand, she maintained, have been personal ones from her husband, King Ferdinand, from one of her daughters, Queen Marie of Serbia, and from other members of the family.

Observed on South Side Tour. But before the dinner and before the conference, Queen Marie, apostle of stick-to-it-iveness, turned a large side of the south side well high upside down yesterday afternoon when in quite a short time she visited the Chicago Lying-in hospital, the Hyde Park Y. M. C. A. and the Chicago Art Institute, and was cheered by piling up crowds at each of the three places.

The tour was emotional as well as a geographic pilgrimage north. That is, so far as the reception committee concerned with each visit were concerned with any one save the queen herself.

The visit to the hospital, managed with genial capability by Mrs. Kellogg Fairbank, one of the directors, was fine and friendly. The queen petted a baby, talked of scientific obstetric details with a surgeon and propounded to the doctors the question, "Why do most babies arrive in the night?"

Y. M. C. A. Reception Flurried. Journeying on a bit further, the queen of Roumania arrived at the Y. M. C. A. in time to throw some of the reception committee into a plain blue panic of flurry. Mr. Arthur Meeker, one of her escorts, was positively funny. Mr. Frederick West, a Y. M. C. A. director, and the gentle

Vatican Denies It Approved Vanderbilt Annulment Case

(Chicago Tribune Press Service.)

ROME, Nov. 15.—Statements that the duke of Marlborough's marriage to Consuelo Vanderbilt was annulled by the tribunal of Santa Rota were vigorously denied in Vatican circles today.

Reports on the matter were brought to the attention of Pope Pius this morning. He declared he knew nothing of such a decision. Annulments must be before the pope for approval.

Archbishop of London asserts the annulment was obtained in a diocesan court on grounds of non-consent on the part of the duke's divorcee.

Bishop Explains Annulment. (Chicago Tribune Press Service.) LONDON, Nov. 15.—The marriage of the duke of Marlborough and Consuelo Vanderbilt, now Mrs. Jacques Balsan, was declared null and void by the diocesan court of Southwark because through fear she did not give her willing but only her unwilling consent to the contract, declared Dr. Amigo, Catholic bishop of Southwark, this after-

noon. The duchess said she was influenced by her mother, now Mrs. G. H. P. Belmont.

"Therefore there never was a marriage contract, and though they lived together more than twenty years they were never married," the prelate added.

In Miss Vanderbilt's case the essential condition of free consent was wanting, for she was forced to give it under pressure of grave fear, unjustly and injuriously brought to bear upon her.

Does Not Affect Children. The nullification does not affect the civil validity of the marriage for the legitimacy of the duke's two children, being merely a spiritual outlook of which the civil courts do not take cognizance.

The bishop denied that the petition for annulment was originated by the duke, who has since married Miss Gladys Deacon, a Catholic, saying that the former duchess applied for the annulment in the Southwark diocese because the duke's residence is there. It is understood the former duchess desired to annul the marriage so as to marry M. Balsan with Catholic rites, and this would have been impossible as long as her status was that of a divorced woman.

men who tossed, verbally but successfully, reporters out of a dinner for Lady Cynthia Mosley some time back, tried to repeat the performance yesterday, in spite of the fact that the local directors wanted newspaper representatives about.

Messrs. Meeker and West formed a sort of London-bridge-is-falling-down archway at the door. Some got caught. Some got through. It wasn't too dignified in the evening, however, it was as the wife of Roumania's ruler that she had spoken when she authorized Maj. Stanley Washburn, her aide, to deny, most emphatically, that her visit was to have a financial reflex in Roumania.

As a matter of record, Maj. Washburn declared, the queen takes back to Bucharest but one bit of largess for her people. That is a five dollar bill which an old woman in Philadelphia shoved into her hands, importing her to take it back to the needy in Roumania.

Dog and Slipper in Day's Royal Log

Following is the log of the life of Queen Marie in her apartment at the Lake Shore Drive hotel, as privately jotted down by a member of the royal entourage yesterday:

8 a. m.—The head housekeeper and maid called to prepare the queen's bedroom. They asked the valet if it was O. K. to go in; he, not understanding English, stated that it was. When they got in they surprised the prince in the act of taking a bath.

8:30 p. m.—Considerable excitement: the queen's personal dog, Kage, was seen to play with the queen's golden slipper. He hid it behind a trunk. After a half hour's search the maid finally found it.

8:35 p. m.—The royal custodian, while the search was in progress, excitedly ran through the royal apartment, exclaiming in broken English: "The queen lost her foot."

9 p. m.—The princess requested that a radio be installed in her suite, which was done. Listened in for one and one-half hours, stating that American jazz was wonderful.

6 p. m.—The detective assigned to guard the royal suite was given a hard assignment. That was to watch a bottle of champagne, Mum's Extra Dry, for five minutes. A test of honesty for the Chicago police department.

7 p. m.—Queen arrived one-half hour late, so interested at the Art Institute forgot about schedule.

7:15 p. m.—Mrs. J. Hamilton Lewis called; cordially received by the queen. Mr. Ryerson also called and received.

7:30 p. m.—Her majesty requested two copies of each newspaper printed in Chicago. Please with contents, ordered that they be fled away to take back to Roumania.

8 p. m.—Several letters received from deposed persons. One man wrote from Racine, Wis., that if offered proper inducements he would marry the princess.

8:30 p. m.—The manager's dog wandered up to the royal suite. Makes friends with the royal cur, Kage.

9:30 p. m.—One of her majesty's ladies in waiting stated that one thing that impressed her majesty very much was the fact that all Americans looked her square in the eyes, whereas the custom in Roumania was to bow and keep eyes on the ground, considered a very bad breach of etiquette to stare at the Queen in Roumania.

10 p. m.—Prince's valet spends half an hour preparing cigaret lighter for the prince, who uses it continuously instead of matches.

Johnson & Harwood November Coat Sale

Cost of extreme right is fashioned in Pointa with Natural Squirrel collar and cuffs. Priced \$95.

First coat at right is fashioned in Roulustra with black fox collar and cuffs. Priced \$125.

Many of the season's most attractive models have found their way into this November Sale of Coats. Women who appreciate good tailoring, high-grade quality cloths and fur trimmings, and who are anxious to save in acquiring these things so essential to comfort and good service, will welcome these coat values at \$95 and \$125. All women's sizes, 36 to 46.

64 YEARS OF LEADERSHIP

MRS. GIBSON TO TESTIFY IN HALL CASE TOMORROW

State Forges New Link in Murder Chain:

Somerville, N. J., Nov. 15.—(Special.)—Assistant Attorney General Alexander Simpson hit the defense hard today in the Hall-Mills trial and after court adjourned he announced he would virtually end his case tomorrow. He said he would rest Wednesday with the testimony of Mrs. Jane Gibson, alleged eye witness of the murder of the Rev. Edward W. Hall and Mrs. Eleanor B. Mills.

The first surprise the special prosecutor gave to the attorneys for Mrs. Frances Stevens Hall and her brothers, Willis Stevens and Henry Stevens, came when he introduced a new witness. He was Elijah K. Soper, a soft spoken, gray haired man, who testified that at midnight of Sept. 14, 1926, he was driving home past De Russy's lane.

Saw Woman in Light Coat. He had attended a meeting of the Order of the Eastern Star with his wife in Somerville. Another couple was in the car with them. As the headlights of his machine searched through the darkness opposite the famous lane the light picked out a dark bodied touring car parked on the roadside. Soper saw two men in the front seat and on the rear seat a woman in a light coat.

He denied steadfastly that he had recognized the trio, but was positive that the coat worn by the woman was light in color. Six witnesses have placed this car and another sedan similar to that owned by the Hall family at this point. Mrs. Gibson in her story has sworn that Mrs. Hall was wearing a tan coat when she saw her bending over the form of the rector in the darkness. A night watchman opposite the Hall home saw a woman in a light coat enter the Hall grounds at 2:45 a. m., the morning following the tragedy on the Phillips farm.

Denies Recognizing Trio. That link appeared forged to the satisfaction of Senator Simpson, for he grinned and looked at the three defendants, stolidly listening to Soper's story. But when he pressed the witness on whether he had recognized the three persons in the car he found himself up against a solid row of negations.

Soper stepped from the stand and Simpson called "Mr. Nixon." This name was another new one in the famous case and necks craned to catch a glimpse of the witness. Mr. B. Nixon identified himself as salesman and head of Nixon's Motor Oil company of Manhattan.

Nixon, a trim man with a square forehead and face, swore that on Sept. 23, 1922, a week after the bodies of the murdered couple had been found, he encountered Soper in a Newark office.

where both were employed. Soper told him, he said, that on the night of the crime he had met an automobile at the lane containing "Mrs. Hall and her two brothers." Nixon was positive that Soper had named the persons he had seen in the touring car.

Kept Silent Four Years.

Clarence E. Case, conducting the cross-examination, failed to shake Nixon's story in any particular. Nixon said that he had not come forward four years ago with his statement because he had not wished to get mixed up in the affair. He professed not to read the newspapers and said that the matter had seemed "no concern" of his. He added that he had volunteered to come forward last Saturday night after his father and several friends had urged him to do so. He said that he had been interviewed in his home in Newark by Inspector John J. Underwood and Capt. Harry Walsh and decided that he "owed it to the state" to tell his version of his talk to Soper.

Two beams of light on the rector's intruder with his attractive chair, louder were turned on by Senator Simpson. The first was through the testimony of Mrs. Elsie Barnhardt, sister of the slain woman, a plump young woman, who seemed to derive enjoyment in the telling of her sister's confidences to her. The second came when Francis L. Bergen, Somerset prosecutor of the plea, was delegated by Simpson to read into the record the dreamy, neurotic border line letters written by Mrs. Mills to the clergyman and found at the scene of the crime.

Sister Tells of Tryst. With a glint of merriment in her eyes, Mrs. Barnhardt told how she had walked unexpectedly into the Sunday school of the rector's parish, the Episcopal Church of St. John the Evangelist, some time before the murders. She called "Eleanor," and Dr. Hall strode out of his study, which opened off the schoolroom.

"She is in the church somewhere dusting," she said the minister told her as he opened the sliding doors, and accompanied her on a vain search. They returned to the classroom in time to see Mrs. Mills come out of the study. Mrs. Barnhardt said that her sister's face was "flushed."

Mrs. Hall listened with her usual calm and failed to register anything more than casual interest when Mrs. Barnhardt quoted her sister as saying that she and Dr. Hall planned to "go away" somewhere, perhaps to Japan, when Charlotte Mills, the daughter, finished school.

CHOIR SINGER'S LETTERS. Mrs. Hall's face was impassive as Mrs. Mills' love letters were read. The first one said:

"Dearest, dearest boy: Wasn't I happy to find your sweet note. . . my darling, how well you seem today. . . I want to lie with you and rest for hours. . ."

"O, you sweet, adorable babykins at min. . . If Minna knew. . . Not that I'm jealous of Minna, but I hate to have her do for you what I thought of first. O, well, poor Minna. She's easily contented with crumbs."

"O, darling," another letter read, "if I could have you in my arms I'd be very selfish. I'd build a love nest. There isn't a house big enough for me—I need the great outdoors to dream in. And, darling sweetheart, that is why I long for an hour with you."

"Darling, I could rave for hours, but I must stop, for there are peepers around. I only know this, dear, if God is real and true, then nature is real and true. Our love is vital and the truest joy. Charlotte talks, and Dan asks questions, and then, he annoys, so how can I write?"

"Dearest, how fast I can read and remember, too, honey mine. (Here were references to characters in Robert Keable's 'The Mother of All Living,' given to Mrs. Mills by Dr. Hall, and she commented on the love of two men for one woman in the book.)

Please Ride with Hall. "Pam meant to have Chris, fair or foul, and he told her he wanted her love. Pam should cast everything aside and take what she wanted—a true, noble lover. O, of course, he was tempted. Her love made her realize that he was unworthy of such a complete love. He was more to her than God. . . Humans forget sometimes. . . Pam thought she was clever. . . But was she? I can easily see how a man could be weak."

"Dearest, it's late—we must take the book with us when we ride and talk about it—especially the marked places. I love Chris. O, it's sweet, darling—but nothing compared to our love."

"Darling, darling boy—I love you most when you do as you did today. Not so much the physical, although the physical fits in. It does not dominate. But it was there just the same and not to be denied. Never." (The "never" was underscored three times.)

"Dearest," another missive said, "as you said today, our hearts are true as steel. I have the greatest of all blessings—a noble man's deep, true, eternal love. Poor as my body is, I am his forever."

"O, darling, darling mine," the sermon went on, "What painful hours today, I told you I did not speak a word to any one. No peace anywhere. When I awoke it was torture, dear, and I didn't care to look. How friendly our Easton avenue road seems to us. Dearest boy, every time you take your hat off I never fail to notice and can read your face. I could fling my arms about you and pour kisses on my baby's face. Oh, I am wild tonight and so happy I could dance wildly."

to me and give me something to put me to sleep. I never felt as miserable as I do now. You asked did I want you to come. Honey, mine, I was needing you as only you know. But he was here and so I asked you not to come."

"Darling, my dear aches, too. I stumbled and almost fell. I want you and your arms to hold and enfold me close. Nothing can cure me now but that. Dearest, give me some word of comfort; tell me you know I was wild to come to you this afternoon."

"Dear Sweetheart Boy."

"Darling, tears every morning. Just to look at you tonight would be a relief, and I don't care how it pains—I'll bear it and come to meet you."

"Darling mine," another letter ran, "Dear sweetheart boy—Oh, how good you are. This is where I find my greatest joy—to be near you—though I didn't care to look. How friendly our Easton avenue road seems to us. Dearest boy, every time you take your hat off I never fail to notice and can read your face. I could fling my arms about you and pour kisses on my baby's face. Oh, I am wild tonight and so happy I could dance wildly."

to me and give me something to put me to sleep. I never felt as miserable as I do now. You asked did I want you to come. Honey, mine, I was needing you as only you know. But he was here and so I asked you not to come."

"Darling, my dear aches, too. I stumbled and almost fell. I want you and your arms to hold and enfold me close. Nothing can cure me now but that. Dearest, give me some word of comfort; tell me you know I was wild to come to you this afternoon."

"Dear Sweetheart Boy."

"Darling, tears every morning. Just to look at you tonight would be a relief, and I don't care how it pains—I'll bear it and come to meet you."

"Darling mine," another letter ran, "Dear sweetheart boy—Oh, how good you are. This is where I find my greatest joy—to be near you—though I didn't care to look. How friendly our Easton avenue road seems to us. Dearest boy, every time you take your hat off I never fail to notice and can read your face. I could fling my arms about you and pour kisses on my baby's face. Oh, I am wild tonight and so happy I could dance wildly."

to me and give me something to put me to sleep. I never felt as miserable as I do now. You asked did I want you to come. Honey, mine, I was needing you as only you know. But he was here and so I asked you not to come."

where both were employed. Soper told him, he said, that on the night of the crime he had met an automobile at the lane containing "Mrs. Hall and her two brothers." Nixon was positive that Soper had named the persons he had seen in the touring car.

Kept Silent Four Years.

Clarence E. Case, conducting the cross-examination, failed to shake Nixon's story in any particular. Nixon said that he had not come forward four years ago with his statement because he had not wished to get mixed up in the affair. He professed not to read the newspapers and said that the matter had seemed "no concern" of his. He added that he had volunteered to come forward last Saturday night after his father and several friends had urged him to do so. He said that he had been interviewed in his home in Newark by Inspector John J. Underwood and Capt. Harry Walsh and decided that he "owed it to the state" to tell his version of his talk to Soper.

The first surprise the special prosecutor gave to the attorneys for Mrs. Frances Stevens Hall and her brothers, Willis Stevens and Henry Stevens, came when he introduced a new witness. He was Elijah K. Soper, a soft spoken, gray haired man, who testified that at midnight of Sept. 14, 1926, he was driving home past De Russy's lane.

Saw Woman in Light Coat. He had attended a meeting of the Order of the Eastern Star with his wife in Somerville. Another couple was in the car with them. As the headlights of his machine searched through the darkness opposite the famous lane the light picked out a dark bodied touring car parked on the roadside. Soper saw two men in the front seat and on the rear seat a woman in a light coat.

He denied steadfastly that he had recognized the trio, but was positive that the coat worn by the woman was light in color. Six witnesses have placed this car and another sedan similar to that owned by the Hall family at this point. Mrs. Gibson in her story has sworn that Mrs. Hall was wearing a tan coat when she saw her bending over the form of the rector in the darkness. A night watchman opposite the Hall home saw a woman in a light coat enter the Hall grounds at 2:45 a. m., the morning following the tragedy on the Phillips farm.

Denies Recognizing Trio. That link appeared forged to the satisfaction of Senator Simpson, for he grinned and looked at the three defendants, stolidly listening to Soper's story. But when he pressed the witness on whether he had recognized the three persons in the car he found himself up against a solid row of negations.

Soper stepped from the stand and Simpson called "Mr. Nixon." This name was another new one in the famous case and necks craned to catch a glimpse of the witness. Mr. B. Nixon identified himself as salesman and head of Nixon's Motor Oil company of Manhattan.

Nixon, a trim man with a square forehead and face, swore that on Sept. 23, 1922, a week after the bodies of the murdered couple had been found, he encountered Soper in a Newark office.

where both were employed. Soper told him, he said, that on the night of the crime he had met an automobile at the lane containing "Mrs. Hall and her two brothers." Nixon was positive that Soper had named the persons he had seen in the touring car.

Kept Silent Four Years.

Clarence E. Case, conducting the cross-examination, failed to shake Nixon's story in any particular. Nixon said that he had not come forward four years ago with his statement because he had not wished to get mixed up in the affair. He professed not to read the newspapers and said that the matter had seemed "no concern" of his. He added that he had volunteered to come forward last Saturday night after his father and several friends had urged him to do so. He said that he had been interviewed in his home in Newark by Inspector John J. Underwood and Capt. Harry Walsh and decided that he "owed it to the state" to tell his version of his talk to Soper.

Sister Tells of Tryst. With a glint of merriment in her eyes, Mrs. Barnhardt told how she had walked unexpectedly into the Sunday school of the rector's parish, the Episcopal Church of St. John the Evangelist, some time before the murders. She called "Eleanor," and Dr. Hall strode out of his study, which opened off the schoolroom.

"She is in the church somewhere dusting," she said the minister told her as he opened the sliding doors, and accompanied her on a vain search. They returned to the classroom in time to see Mrs. Mills come out of the study. Mrs. Barnhardt said that her sister's face was "flushed."

Mrs. Hall listened with her usual calm and failed to register anything more than casual interest when Mrs. Barnhardt quoted her sister as saying that she and Dr. Hall planned to "go away" somewhere, perhaps to Japan, when Charlotte Mills, the daughter, finished school.

CHOIR SINGER'S LETTERS. Mrs. Hall's face was impassive as Mrs. Mills' love letters were read. The first one said:

"Dearest, dearest boy: Wasn't I happy to find your sweet note. . . my darling, how well you seem today. . . I want to lie with you and rest for hours. . ."

"O, you sweet, adorable babykins at min. . . If Minna knew. . . Not that I'm jealous of Minna, but I hate to have her do for you what I thought of first. O, well, poor Minna. She's easily contented with crumbs."

"O, darling," another letter read, "if I could have you in my arms I'd be very selfish. I'd build a love nest. There isn't a house big enough for me—I need the great outdoors to dream in. And, darling sweetheart, that is why I long for an hour with you."

"Darling, I could rave for hours, but I must stop, for there are peepers around. I only know this, dear, if God is real and true, then nature is real and true. Our love is vital and the truest joy. Charlotte talks, and Dan asks questions, and then, he annoys, so how can I write?"

"Dearest, how fast I can read and remember, too, honey mine. (Here were references to characters in Robert Keable's 'The Mother of All Living,' given to Mrs. Mills by Dr. Hall, and she commented on the love of two men for one woman in the book.)

Please Ride with Hall. "Pam meant to have Chris, fair or foul, and he told her he wanted her love. Pam should cast everything aside and take what she wanted—a true, noble lover. O, of course, he was tempted. Her love made her realize that he was unworthy of such a complete love. He was more to her than God. . . Humans forget sometimes. . . Pam thought she was clever. . . But was she? I can easily see how a man could be weak."

"Dearest, it's late—we must take the book with us when we ride and talk about it—especially the marked places. I love Chris. O, it's sweet, darling—but nothing compared to our love."

"Darling, darling boy—I love you most when you do as you did today. Not so much the physical, although the physical fits in. It does not dominate. But it was there just the same and not to be denied. Never." (The "never" was underscored three times.)

"Dearest," another missive said, "as you said today, our hearts are true as steel. I have the greatest of all blessings—a noble man's deep, true, eternal love. Poor as my body is, I am his forever."

"O, darling, darling mine," the sermon went on, "What painful hours today, I told you I did not speak a word to any one. No peace anywhere. When I awoke it was torture, dear, and I didn't care to look. How friendly our Easton avenue road seems to us. Dearest boy, every time you take your hat off I never fail to notice and can read your face. I could fling my arms about you and pour kisses on my baby's face. Oh, I am wild tonight and so happy I could dance wildly."

to me and give me something to put me to sleep. I never felt as miserable as I do now. You asked did I want you to come. Honey, mine, I was needing you as only you know. But he was here and so I asked you not to come."

'LAFE' YOUNG, 78, VETERAN EDITOR OF IOWA, IS DEAD

Carried Type for First Paper on His Back.

(Picture on back page.)
Des Moines, Ia., Nov. 15.—(AP)—Death today claimed another member of the old school of American journalism, Lafayette Young, 78, editor and publisher of the Des Moines Daily Capital.

Mr. Young died of heart disease in the rest room of a bath parlor. He had been under observation of a physician for several weeks, but earlier in the day had appeared in normal health.

The passing of the veteran editor was that of one of Iowa's foremost citizens. He carried the distinction of past generations in his newspaper affairs, with his own personality dominating his publication, and, in addition, had lived a varied career in public life, serving his state in the United States senate and lesser offices.

Senator Young's paper will continue in his family without change in administration or policy, Lafayette Young Jr., business manager, announced following his father's death.

Mr. Young was a true type of "self made man." His career led him from boyhood on a southern Iowa farm which he managed at the age of 13 while his father and brothers were in the civil war, to a position of commanding influence. He went into western Iowa in 1873 and started a newspaper at Atlantic, transporting the mechanical equipment part way, piece by piece on his shoulders and later built up a newspaper that developed into a flourishing daily.

Mrs. Young, who has been seriously ill recently, and two sons survive.

TIME EITHER TO LAND HIM OR CUT HIM LOOSE

BRITISH, FRENCH TO QUIT RHINE BY JAN. 1, BELIEF

BY JOHN STEELE.

(Chicago Tribune Press Service.)
[Copyright: 1926: By The Chicago Tribune.]
LONDON, Nov. 15.—Important conversations now are going on between the British foreign secretary, Sir Austen Chamberlain, French Foreign Minister Aristide Briand, and their officials on the subject of the German disarmament which are likely to lead before long to complete evacuation of German territory by the allies.

Both the British and French are anxious to get out. Careful investigation convinces them that two elements are holding up the settlement.

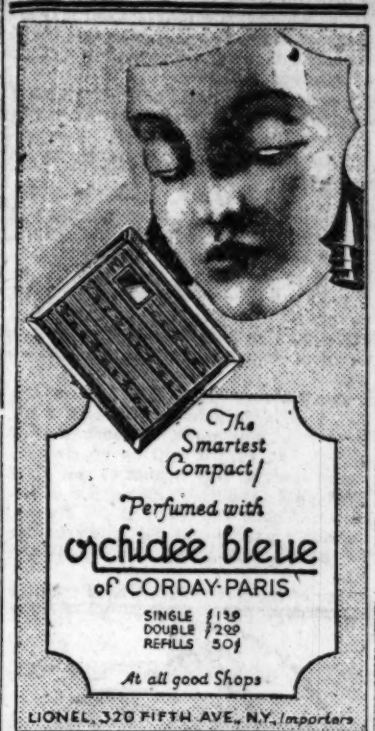

The first is the German Nationalists, who seize every opportunity to make difficulties for the German republican movement and throw every obstacle in the way of peace.

The second is the military chiefs of the occupation forces, commissions of control, investigation, and so forth, who are not willing to give up their soft jobs, large expense accounts, and comfortable quarters and are continually finding new technicalities showing Germany's failure to disarm.

Foreign Minister Gustav Stresemann volunteered to deal with the opposition in Berlin if Sir Austen and M. Briand will give him a definite list of the demands, comprising three or four

points, which he can accept as an exchange for complete evacuation. This, of course, implies that the British and French will deal with their military agents the same way Dr. Stresemann does with his political opposition.

The conversations now so far have advanced that a positive list of demands, previously agreed on with Dr. Stresemann, may be presented any time, and it is possible that the complete evacuation of the occupation forces in Germany may take place around the New Year.

Acidophilus Milk

(Brook Hill)

THE average adult chooses to ignore the prevalence of internal poisoning and the destruction it works on the system. Many are tricked into complacency by health that just seems "all right."

But that steady decline of vigor and vitality in late years should warn that something has been wearing the system down.

That something is internal poisoning, an outgrowth of intestinal food decay. It is the foe which thwarts the body's valiant efforts to rebuild itself.

Relieve your system of this handicap in its battle for health!

Acidophilus Milk eliminates internal poisoning in accordance with Nature's own plan. The Acidophilus Bacillus—with which we were endowed at

birth—is an organism that keeps the digestive tract free of food-decaying germs.

The glowing health and unbounded vigor you enjoyed in youth were fostered by these Bacilli. While they predominated you were free of food decay and resultant internal poisoning.

Taken regularly, Acidophilus Milk will restore that safeguard of health which carelessness in diet since childhood has slowly forfeited. Every quart of it contains millions of living Acidophilus Bacilli, ready to stock the digestive tract as an effective defense against disease.

It will regain and retain for you that health which makes itself known in youthful vigor, greater vitality, and heightened enthusiasm.

Drink Acidophilus for health, beauty and vitality **50c** quart

Antiques

Lovers of things unique and those seeking gifts of rare character and beauty should not fail to visit the Antique Shop, second floor, during the Anniversary Sale. This shop is a veritable museum of carefully selected objects, many of which are unusually intriguing because of the prices advantageous buying has made possible. Spain, Italy, France and England are notably represented by specimens that are really a part of the history of those countries. Nowhere can you find a more pleasing wedding, anniversary or Christmas gift.

Genuine Meakin

English Queensware—Chatsworth pattern—with conventional border and floral sprays. All pieces edged with dull red enamel. Teacups and saucers have inside decorations. 50-piece sets were \$47, Now \$35. 32-piece sets were \$22, Now \$16.25.

Beautiful Ivory

"Olivia" Ivory English Queensware with old-fashioned flowers to harmonize with any colorings. Red enameled outer edge on unusually pleasing shapes. 50-piece sets were \$38, Now \$28. 32-piece sets were \$17.50, Now \$14.

Flowery Pope-Gosser Ware

An exquisite floral pattern reproduced from an old French museum design. Soft hues on deep ivory with gold rims make this a highly prized service. 50-piece sets were \$40, Now \$30. 32-piece sets were \$18, Now \$13.50.

Half and Less

Ahrenfeldt after-dinner cups and saucers. Blue lines, pink festoons and gold edges. Were \$2.00 each, Now \$1 each.

Ahrenfeldt porcelain bouillions and saucers of old gold and green with half gold handles. Were \$5.00 each, Now \$2 each.

"Hirado" Fumival's English Queensware, oriental pattern after-dinner coffee. Were more than double sale price, Now \$50 each.

Chinese blue and green "Barbara" ivory porcelain bouillions and stands. Were \$1.75 each, Now 90c each.

Adams Titian cream soup, "Brocade" pattern, with yellow band and hand enameled floral pattern. Were \$3.00 each, Now \$1.50 each.

Remarkable Values

"V. S. L." Belgian ringing crystal tumblers, festoon pattern, etched, were 50c each, Now 25c each.

Libby "No-Chip" tumblers with etched bands, were 25c each, Now 15c each.

"V. S. L." Belgian ringing crystal goblets, floral festoons delicately etched, were \$1 each, Now 60c each.

Glass Plates Less Than 50c

Salad plates with raised floral design and serrated edges in all of the popular colors. Now 30c each.

Rose-Marie salad plate, twist design, Now 35c each.

Square desserts with notched rib pattern in canary, amber, green and American blue. Now 15c each.

Crystal plates with embossed hawthorne design. Now 35c each.

Cambridge plates with raised laurel leaf pattern. Peach blow or green. Now 45c each.

9 Pieces Now \$10.00

Bowl and four candlesticks made especially for us. Bowl has roll edge and candlesticks are original in shape. A quaint floral cutting twines over the surface of the five pieces. In Rose-Marie or green, with four candles to match. Complete at \$10.00.

Figures at About Half

Lovely figures, surprisingly priced and suitable for boudoir lamp mounting.

The larger figure, dressed in historic blue, red and green, was \$12.50, Now \$6.25 each.

French opera figures, such as Petruccio sketched, were \$10.00, Now \$5.00 each.

The Dresden serenade, in pastel tones, is delightful. Formerly \$17.50, Now \$10 each.

Bowl and Figure Lamp

A center decoration which displays flowers to best advantage and then makes them more beautiful by shedding a soft glow over the ensemble. Complete and ready to charm the eye, Special at \$15.00 each.

TOUR OF MARIE BIG ASSET IF LOAN IS ASKED

Her Contacts in U. S. Run
Into Billions.

(Continued from first page.)

Mr. Nelson Morris, son of one of the original big five packers. Chicago's official host is Arthur Meeker, vice president of Armour & Co., which is capitalized at \$231,465,300. Among the other men active in the reception were Potter Palmer and Cyrus McCormick Jr.

Queen Marie inspected the big steel mill yesterday under the guidance of J. J. Buffington, president, and Theodore W. Robinson, vice president, of the Illinois Steel company, a subsidiary of the United States Steel corporation. Mrs. Rockefeller McCormick, daughter of John D. Rockefeller, entertained the queen at her Lake Shore home at luncheon Sunday.

Lumber and Sugar.
At Minneapolis the queen gained a social contact with the flour millers and the rich lumber men. The princess played tennis with the younger Crochys. At Seattle and Denver she met millionaires interested in the sugar business. In New York she met the men who have made millions out of oil, tobacco, gas, publishing, railroads, dry goods, and ammunition. She will chat with the motor makers in Detroit, whom the government credits with having \$1,321,000,000 invested in the business.

A spokesman for the royal party informed the Associated Press yesterday that Queen Marie has had no hand in negotiating the reported loan of \$100,000,000. Nor is it intimated in this report that the queen took a part, but she came in contact with men who control money, who loan money, and who influence banks in loaning money. It is not intimated that she designed to do so, but she apparently has made a favorable impression with both men and women of great wealth.

Meets the Hills, Railroad Men.
In St. Paul the queen was entertained at the home of Louis W. Hill, son of the great railroad builder, the late James J. Hill. He constructed the Great Northern railroad of which the net tangible assets are reported as \$337,162,958. Samuel Hill, a son-in-law of James J., was her host in the far west.

Kansas City is about as human as any other large town and probably no more susceptible to the charms of a

L. C. ADDS 7,000,000 RIDES IN YEAR, ONE OF ENGINEERS SAYS

Seven million new passenger rides have been made on Illinois Central suburban trains in the last year, due largely to electrification (though such actual operation has been in effect only a relatively small part of the year), C. H. Motter, Illinois Central engineer of design, told the Western Railway club at the Hotel Sherman last night.

A year ago 25,000,000 passengers, or one out of every thirty-one first class railroad passengers in the United States, used the service, he said. This was an increase of 3,000,000 over 1924. The total for this year, he said, is \$3,000,000.

"We are now running 440 regular suburban trains and 54 shop trains, a total of 90 more than under steam power," Mr. Motter explained. "We are going for auxiliary work, such as construction of 250 miles of new track and moving of 200 miles in depressing tracks and eliminating grade crossings."

Reviewing other aspects of the Chicago terminal electrification, Mr. Motter said his road so far has spent \$54,000,000 on the project. Only \$10,000,000 of this sum was spent for new equipment, however, the remainder going for auxiliary work, such as construction of 250 miles of new track and moving of 200 miles in depressing tracks and eliminating grade crossings.

Lumber and Sugar.
At Minneapolis the queen gained a social contact with the flour millers and the rich lumber men. The princess played tennis with the younger Crochys. At Seattle and Denver she met millionaires interested in the sugar business. In New York she met the men who have made millions out of oil, tobacco, gas, publishing, railroads, dry goods, and ammunition. She will chat with the motor makers in Detroit, whom the government credits with having \$1,321,000,000 invested in the business.

Large Wealth Meets Her.
The Kansas City correspondent of THE TRIBUNE says the guests with the queen were:

"Senator Arthur Capper of Kansas, worth \$3,000,000; W. S. Dickey, sewer pipe manufacturer, worth possibly \$3,000,000; John H. Bovard, coal mine operator, worth \$2,000,000; David Mulvane, banker and politician, worth \$3,000,000; Wallace N. Robinson, hotel owner, worth \$3,000,000; H. F. Hall, grain dealer, worth \$7,000,000; F. G. Crowell, grain dealer, worth \$2,000,000; O. W. Scurritt, lawyer, worth \$2,000,000; Walter H. Holmes, banker, worth \$2,000,000, and others."

In St. Louis 500 citizens paid \$10 a plate and the wealth represented at the luncheon there is estimated at above \$25,000,000.

In Baltimore it is estimated that probably \$9,000,000 in wealth was represented at the dinner and reception. Among those present were Robert Garrett, Mrs. Frank S. Hamilton, Dr. Henry Barton Jacobs, Col. Isaac Jenks, ex-Gov. Phillips Lee Goldsborough, all rated in the millionaire class.

Real Money in New York.
The big reception given the queen in New York was attended by representatives of great industries, banks and other corporations. The evening reception, organized by the Society of Friends of Roumania, of which William Nelson Cromwell is president, invited 700 guests. Some of the leaders together with a New York attempt

RALPH CAPONE, TWO SALTIS PALS WIN FREEDOM

Indictment charging Ralph Capone, brother of Al and Pete Pizzo with carrying concealed weapons was quashed yesterday in Judge William V. Broderick's court on the ground that it was defective. It was reported at the Criminal court building yesterday that

to estimate the wealth of each, are as follows: George F. Baker, \$200,000,000; George F. Baker Jr., \$50,000,000; H. M. Baruch, \$15,000,000; Arthur Brisbane, \$5,000,000; Vincent Astor, \$100,000,000; Irving T. Bush, \$2,000,000; Mrs. August Belmont, \$5,000,000; R. Fulton Cutting, \$10,000,000; Cyrus H. K. Curtis, \$10,000,000; Elbridge T. Gerry, \$10,000,000; William F. Hearst, \$50,000,000; Col. E. M. House, \$1,000,000; Otto Kahn, \$5,000,000; Clarence H. Mackay, \$50,000,000; J. P. Morgan, \$50,000,000; Dwight W. Morrow, \$1,000,000; Adolph Ochs, \$20,000,000; Ogden Mills Reid, \$2,000,000; Mrs. Whitelaw Reid, \$15,000,000; John D. Rockefeller Jr., \$500,000,000; Percy A. Rockefeller, \$10,000,000; H. H. Rogers, \$30,000,000; Elfrin Root, \$1,000,000; Thomas F. Ryan, tobacco magnate, \$20,000,000; Gen. Cornelius Vanderbilt, \$15,000,000; Payne Whitney, \$10,000,000; Rodman Wanamaker, \$5,000,000; T. C. Du Pont, \$20,000,000.

At White House Dinner.
At the White House dinner at Washington the queen was also a member of the party. Mrs. Nicholas Longworth, wife of Speaker Longworth, has a fortune estimated at \$1,500,000. Secretary of State Kellogg is said to have laid by \$2,500,000. Secretary of the Treasury Mellon has been estimated to have \$300,000,000. Secretary of War Davis is rated as a millionaire. There were others of perhaps less wealth.

The people of wealth at every American point the queen touched have shown her courtesies and have been charmed by her courtesy and personality. If, following her tour of this country, it develops that Roumania actually has applied for a loan, it is certain that she—perhaps without any thought of the loan—has made friendly acquaintances in a fertile field.

EXTENSION OF PAID SLEEPING CAR SERVICE TO NORTHERN WISCONSIN, UPPER MICHIGAN, CHICAGO, NORTH

WESTERN RY.

Letters in Love Suit

Pays \$1 Each for 1,000

Richard O. Fisher, 35 years old, assistant to the vice president of the Illinois Central railroad, paid \$1,000 for 1,000 love letters yesterday when the suit of Mrs. Blanche F. Steger, 28 years old, 441 Lake Park avenue, for breach of promise, was brought up before Superior Judge Joseph B. David. Mrs. Steger sued for \$10,000. She accepted \$1,000 in full settlement.

An echo of the acquittal of Big Joe Salts and Frank Konold, after trial on charges that they had killed Mittlers Foley, was heard yesterday.

James C. O'Brien, special assistant state's attorney, had stricken from the calendar, with leave to reinstate, the murder charge against Big Ed Herbert and Dingbat Obera. They, henchmen of Salts, also were accused of a share in the killing of Foley.

Orthophonic Victrola
"CONSOLETTA"
\$85

Very low in price and small in size, yet with a beauty and richness of tone, due to the Orthophonic construction, that is remarkable. Particularly suited to the small home or apartment. Two-tone mahogany cabinet in Sheraton Colonial style.

(Electric motor \$35 extra)

Orthophonic Victrola
No. 4-7
\$125

This model provides beautiful music and a beautiful cabinet, at a very low price. It is particularly appropriate as a Christmas gift for anyone living in a small home or apartment. An Italian Renaissance cabinet of handsome design finished in mahogany.

(Electric motor \$35 extra)

Orthophonic Victrola
No. 4-4
\$160

A beautiful console type instrument in Spanish style. One of the most popular models—certain to be a favorite with Christmas shoppers. Cabinet finished in mahogany, veneered, two-tone, blended. Orthophonic reproduction at a low price.

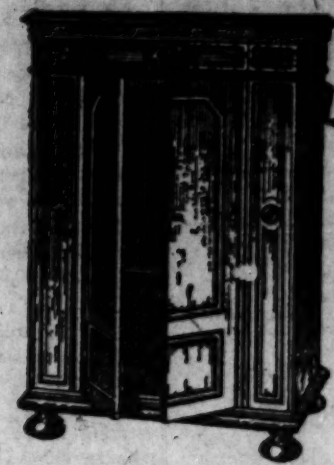

(Electric motor \$35 extra)

Orthophonic Victrola
No. 8-4
\$235

A new instrument just received from the Victor factories. Obtainable in either mahogany or walnut, blended. Italian Renaissance style. Motor runs 20 minutes without re-winding. Sure to be one of the most popular of the Orthophonic this Christmas.

(Electric motor \$35 extra)

Orthophonic Victrola
"CREDENZA"
\$300

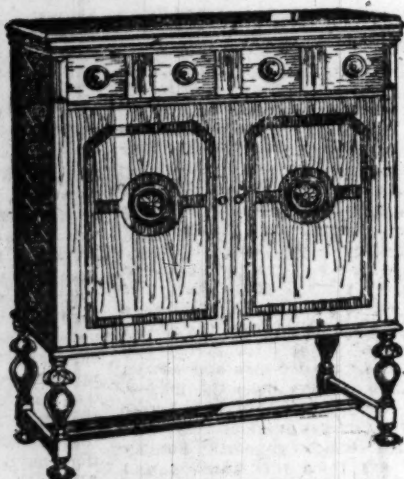

The Orthophonic Victrola in its highest development. Its great tone chamber, 70 inches in total length, reproduces the lowest bass tones, the highest soprano voice, with amazing fidelity. In walnut or mahogany, blended, with Italian Renaissance decorations. Very convenient terms. (Electric motor \$35 extra)

Combination Victrolas and Radiolas

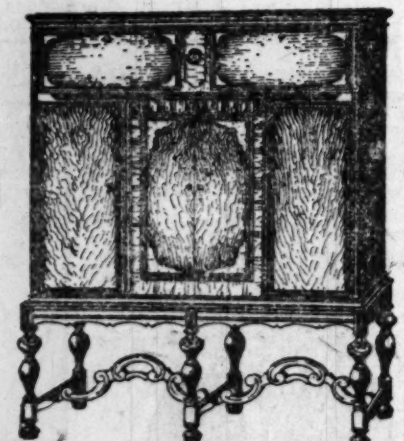

Orthophonic
Victrola-Radiola
No. 7-3
\$375

The Orthophonic Victrola with a five-tube Radiola receiving set. Contains four UX199 tubes and one UX120 power tube. Operates from dry batteries all contained within the cabinet. No exposed speaker or outside wires. Its very low price has brought this model in great demand. Immediate purchase is advisable to insure Christmas delivery.

Orthophonic
Victrola-Radiola
"FLORENZA"
\$550

The Orthophonic Victrola combined with the six-tube Radiola Super-Heterodyne. Italian style cabinet in two-tone, blended walnut. The marvelous Orthophonic tone chamber also acts as loudspeaker for the radio. Very convenient terms with allowance on your present radio or phonograph.

Electrola-Radiola
"HYPERION"
\$900

A beautiful instrument, in Italian style, combining the Electrola, which plays records by electrical pick-up, and the eight-tube Radiola Super-Heterodyne. Everything operated from house current, no batteries, no outside wires, no exposed speaker. Cabinet in Italian style, finished in walnut, with blended maple overlays.

Orthophonic
Electrola-Radiola
"BORGIA II"
\$1000

Orthophonic Victrola and Orthophonic Electrola in their highest development, combined with eight-tube Radiola Super-Heterodyne. Exceptional radio reception through Orthophonic tone chamber. Operates entirely from electric light socket—no batteries needed. Italian Renaissance cabinet, finished in walnut. Very convenient terms. The last word in sound reproducing instruments.

Victor Electrola
"CROMWELL"
\$450

Reproduces music electrically. Amplified by vacuum tubes, through a cone speaker. Operates from electric light socket. A beautiful cabinet in Cromwellian style of the Jacobean Period. May also be used as power loudspeaker and "B" battery eliminator for your present radio. Allowance made on your present phonograph or radio.

Victor Electrola
"TUSCANY"
\$550

The highest development of the Electrola. Volume can be regulated to fill a big hall or a small room. Operates from light socket. Cabinet in Italian style, blended mahogany, doors banded and paneled. May also be used as power loudspeaker and "B" battery eliminator for your present radio.

Victor Orthophonic
Electrola
No. 8-60
\$650

Reproduces music two ways: electrically, through the equipment of the Electrola, and also through the Orthophonic reproducer. Same tone chamber for both. Complete operation from light socket. May also be used as power loudspeaker and "B" battery eliminator for your present radio. A marvelous instrument—a marvelous Christmas present.

The Most Powerful Musical Instrument in the World—

To be shown here today—and all this
week and next—first time in any store!

The New Auditorium Orthophonic Victrola

It was fitting that the Victor Talking Machine Company should choose Lyon & Healy, the world's greatest music store, to introduce to Chicagoans this newest marvel of the Age of Music.

The same genius which conceived this new Auditorium Orthophonic Victrola for public use produced the Orthophonic Victrola for the home. You will realize you are hearing a new kind of instrument when you hear any of these beautiful Victrolas pictured and described here.

They heard it half a mile away!

People have stood half a mile from this new concert Orthophonic and heard distinctly its music.

200,000 Philadelphians in one audience heard the Auditorium Orthophonic with amazement and enthusiasm—the only time any such thing has been done without the use of amplifiers. No amplifying device whatever was used in this huge concert.

This Auditorium Orthophonic can croon the softest lullaby or thunder out majestic marches with a volume incredible to any who have not heard this wonderful instrument.

Any Victor record can be played on the new instrument—and played with greater volume of sound than the original music had, without any change in quality.

You Are Invited

THE new Auditorium Orthophonic will be played daily, in the Lyon & Healy concert hall on the first floor (Jackson Boulevard Entrance), at 9 a. m. to 5:45 p. m.

As the capacity of our hall is limited, to avoid the crowd we suggest coming early in the day or during late afternoon.

This presentation will be the first in any store.

LA MAISONNETTE

Antiques

Nouveautés

Like a little shop in an old street in Paris, this new corner is a place in which you can poke about unearthing treasures for your home. There is a collection of Louis Philippe ornaments just arrived from Paris, where 1830 is the epoch now in vogue among fashionable "antiquers." There are old prints and lithographs, Louis Philippe tea sets, Jacob Petit vases, glass-topped candy boxes, old bell pulls, silks that were used in gowns of the ladies of the court, pillows, chaise longue throws and funny china dogs that the ladies of 1830 adored. Equally delightful are the painted lamp shades from a studio in London and the Wiener Werkstatt papers.

Fifth Floor, North, Wabash

This handsome Rosenthal set of 90 pieces is a fine value at \$125. Open stock.

This open stock French china, in a 93-piece set, is \$87.50. New designs.

A 106-piece set of this blue Canton ware is now priced at \$45. Open stock.

Fine Rosenthal china, decorated with encrusted gold. A 106-piece set is \$275.

Your Thanksgiving Table Should Be as Beautiful
As It Is Bounteous

What a happy sight a Thanksgiving table is! Even Christmas dinner does not rival it in the good cheer of the diners and the lusciousness and variety of the food. Thanksgiving Day! For many years it has been the nation's annual day of feasting. Tables should look their best then, replete with sparkling glass and gleaming china.

A Table in the Roumanian colors, set with gold, fine linen, exquisite crystal and deep red roses supposes as its honored guest Her Majesty the Queen of Roumania. It is to be seen on the Second Floor, North, State.

Blankets and Comforters as Good-looking
As They Are Warm

Holland Blankets Are \$34.50 Each

One is illustrated at the left. They are always popular with our patrons, and \$34.50 is a very attractive price. They're large and made of a fine grade of long wool; soft and warm.

White Wool Blankets, \$16.25 Pair
They're all wool, 70x80 inches, and made soft, thick and warm.

Plaid Wool Blankets, \$12.25 Pair
A select grade of wool makes them warm and soft. Size: 70x80 inches.

Quality Wool Comforters, \$7.85
The cover is a sateen of good quality with a floral center; 72x84 inches.

Down Comforters, \$21.50
They're filled with new white goose down and covered with figured sateen.

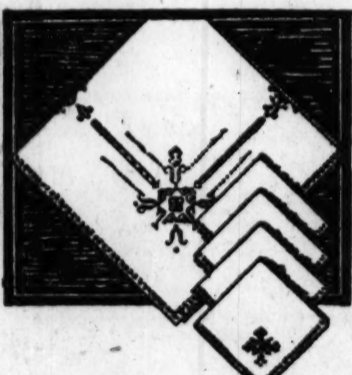

Second Floor, North, State

Every Piece of Decorative Linen Is
Reduced During November

The holiday season, and the season of many social events, is rapidly approaching. You'll be giving many gifts and prizes, and it is for such uses that Decorative Linens are particularly popular. Until the end of the month you can purchase anything in our stock at a substantially reduced price: Centerpieces, Bridge Sets, Luncheon Sets, Scarfs, Embroidered and Lace Trimmed Sheets and Pillowcases, Towels, and many other pieces.

ITALY! PARADISE FOR WORKER AND HELL FOR IDLER

This Is Fascist Dream in Rebuilding State.

BY JOHN STEELE.
(Chicago Tribune Press Service.)
(Copyright, 1926, By The Chicago Tribune.)

SECOND ARTICLE.

LONDON, Nov. 15.—What is this Fascism which has changed the face of modern Italy, reformed the traditional Italian character and made what was formerly one of the world's minor powers potentially one of the greatest? Is it philosophy or system of machinery?

I have been trying to find out and have come to the conclusion that it takes part of both and as far as philosophy is concerned, it is the greatest paradox in the world's history.

The average American or European understands two underlying philosophies in politics—conservatism and liberalism. In the modern parliamentary state party division is based on the conflict between these philosophies and in the last resort the origin of legislative policies may be traced to them.

Leaders Unable to Explain It.

I have been inquiring diligently what the underlying philosophy of Fascism is and have discovered that neither of these words mean anything to the modern Italian. Among the men whom I have asked to define the Fascist philosophy are Cino Olivetti, secretary general of the federation of industry, which is the Fascist organization of employers; Edmondo Rossoni, president of the central labor syndicate; Senator Cippico, one of the original Fascists and representing the intellectual side of Italy; representatives of the Italian foreign office; leading Italian journalists, and others, and from all I received the same reply: "Fascism is the new spirit of Italy."

But what that means in the language of ordinary democratic countries all seemed unable to convey.

"All for the State."

I came to the conclusion that we were talking in different political languages and that fascism is something entirely new in the political world which cuts across both the old philosophies and takes to itself, perhaps, much of the good of both. Its motto, which, perhaps, summarizes as well as anything else its philosophy, is: "All for the state."

And this was explained to me by Senator Cippico as meaning that no one has the right to exist as an individual, but only as a useful member of the state. Translated into economic terms, the only persons who have any right to existence are producers. The object of fascism, therefore, is to make Italy a paradise for

producers and a hell for idlers. From that flows the idea of a great Italy, with colonies and resources, all of which are employed for the glory of the Italian state and benefits its producer citizens.

Whole Basis of System Economic.

Fascism is a series of paradoxes. It is a democratic movement in that it aims at the greatest good of all citizens, but it is reactionary in the method by which it suppresses all liberty of speech and action. In fact, it denies the right of all liberty except liberty to work for the state.

It is a socialist movement again in that it aims at the organization of industry for the benefit of all citizens, but it repudiates the Marxian doctrine of class struggle, denies the existence of classes in the Marxian sense, and recognizes capitalists and intellectual workers as producers equally with manual laborers.

The whole Fascist system is built on the soviet system in Russia was built on the organization of industry, but unlike Russia, there is an equal place in the system for workers of all categories, whether manual, technical, or directive.

How Industrial System Is Organized.

In order to understand what is happening in Italy, it is necessary to outline a framework of the industrial system which has been created by Fascism and which, it is claimed, renders strikes and lockouts impossible.

By law, all industry is organized as follows: At the head of all is the minister for corporations, who is Premier Mussolini. Then comes what is known as the confederation of confederations, and next three central confederations—manual labor, intellectual labor, and capital.

Manual labor and capital each are divided into six confederations—industry, commerce, banks, agriculture, land transport, and sea transport—and intellectual labor into three—creative artists, artistic workmen, and professional men.

Law Forbids Strikes.

All labor contracts must be between employer and employee, but they must be approved by local syndicates on each side. In event of disputes the law

forbids strikes and lockouts and the disputes must be referred to labor courts, from which the only appeal is on technical grounds.

The weak point in this system seems to be the machinery for avoiding strikes. Cases are conceivable in which the men are willing to sacrifice their funds and fight. I asked Sig. Olivetti what would happen in such a case. "We would put the leaders in jail," was his reply.

But when I pointed out that it would be impossible to make unwilling men work effectively, even if there was a soldier beside each one, he fell back on the "new spirit," declaring such a state of affairs was impossible in new Italy. Sig. Rossoni, chief of the workmen's syndicates, who has a record as an I. W. W. agitator in America, was equally unsatisfactory, declaring again the new spirit had created new conditions which were not comparable to labor conditions in other countries.

This is the condition now when Italy is in a state of economic as well as political exaltation. What will happen when the cold fit comes, if it does come, none can tell.

ON THE TRAIL OF TREASURE

Soft Light,
Dim Shadows

—recovery of the very spirit of romance—the age-old spell of faintly-flickering flame. Candelabra ever have symbolized quiet restfulness, contentment, friendliness.

Sheffield candelabra and candlesticks in rich array—creations of the profuse present and rare specimens of the proud past—are in evidence at the Hoops salons in most comprehensive and gratifying display. Other items in Sheffield plate intensify your inspection.

(Christmas gifts of distinction, gifts that will endure—thousands and thousands of them—are ready. Early selection is suggested.)

Heavy Duty Light Duty

No. 486 Width 4 1/2 inches No. 772 Width 5 1/2 inches

They last twice as long

THOUSANDS of folks are now buying their first radio set. The vast majority of the new receivers have five, six and even more tubes. All radio sets operating a loud speaker should be equipped with Eveready Heavy-Duty Batteries because these big "B" batteries last twice as long as the Light-Duty "B" batteries. Smaller batteries, however, are often sold with a set as original equipment, in order to keep your initial investment as low as possible. This is a mistake.

As a matter of dollars and cents saved, it is battery economy to buy Eveready Heavy-Duty Batteries. These big, husky "B" batteries last twice as long, and cost only one-third more.

The exclusive construction of Eveready Layerbilt No. 486 makes it the longest lived and most economical of all Heavy-Duty batteries.

Manufactured and guaranteed by

MORNING WISDOM

A clear mind is conditioned on regular clearance of the body. Delay in the elimination of residual waste burdens the system with poisons which the blood-stream absorbs and carries to the various organs of the body.

A half glass of water sparkling with a dash of ENO and taken in the morning will exercise a good influence for the removal of toxic wastes from the system. And by so doing ENO helps to brighten the skin, the eyes and the outlook. ENO contains nothing uncertain nor drastic, and no sugar.

ENO, the World-famed Effervescent Salt, is obtainable from all druggists at \$1.25 and 75c a bottle

RECOUNT FIGHT LIKELY IN O'BRIEN- HARDING CONTEST

Butter Now Leads by
More than 1,300.

The end at noon today of the official canvass for county treasurer—a hot contest that has been swinging back and forth between George F. Harding, Democrat, and Martin J. O'Brien, Republican—will only be the signal for the real battle to start.

The matter which side wins in the final canvass, it will be nothing more than a settlement of the question of who will be the final result is, it will be so close that it hinges on the decisions of the canvassers for both sides in connection with disputed territory.

The canvass of the official canvass and the police returns for the election of the city's fifty wards, made

public yesterday, showed O'Brien had gained 1,817 over the police returns, which had given him a total of 247 votes over Harding. Harding's gains were 2,435, which put him 1,588 net ahead of O'Brien, including the elimination of the original O'Brien lead of 247.

Graydon Considers Contest.

In the meantime Charles B. Graydon, one of the defeated Republican candidates for sanitary district trustees, threatened to contest the election of George Hull Porter, Democrat. He asserted the canvass of the tally sheets clearly justifies him in asking such a recount. A recount for Graydon would throw the control of sanitary district into the balance, pending the contest.

Through the election of Porter and Ald. John J. Touhy, the Democrats got five of the nine places on the sanitary board and already are negotiating among themselves for the presidency of that board.

Small Oves Almost \$700,000.

As the result of a meeting here yesterday between Attorney General Carlstrom and Gov. Len Small and his lawyers in the state treasury interest suit it was indicated that the amount for which Small must account will be nearer \$700,000 than the \$1,000,000

originally estimated. The new figure was reached informally in checking up interest payments made by Small while treasurer. The case comes up again Dec. 1 before Master in Chancery Charles O. Briggs at Springfield.

A total of 17 legitimate banks in which Small's deposits have been checked and about \$250,000 in interest earnings accounted for, leaving a balance of approximately \$700,000 in the Grant Park bank transaction, it was said.

DR. CASE IN NEW PULPIT; PRAISED BY OAK PARKERS

Quincy, Ill., Nov. 15.—(Special.)—Central Baptist church greeted its new pastor, Dr. Carlos Dolos Case, formerly of Oak Park, Ill., with a crowded house on his first appearance here. The Rev. H. O. Rowlands of Chicago introduced the new pastor and read a letter of congratulation signed by fifty or more members of the Oak Park church, in which they expressed their confidence in Dr. Case, and cited his successful church and community work in Oak Park.

This letter was signed by ministers, physicians, educators, and business and professional men.

GERMAN PARTY SWEEPS POLISH UPPER SILESIA

Pilsudski Fails to Save Warsaw Ticket.

BY SIGRID SCHULTZ.

(Chicago Tribune Press Service.)

BERLIN, Nov. 15.—To insure victory for the Polish politicians in the elections in the Upper Silesia districts awarded to Poland by the league of nations on the strength of the Versailles treaty, Premier Marshal Pilsudski ordered compulsory elections, threatening each Pole with heavy fines if he failed to attend. The premier threatened in vain. The Upper Silesian elections ended in a crushing defeat for the Polish politicians and a big victory for the Germans.

Victory Pleases Berlin.

The Warsaw papers tonight openly admit the defeat of the Poles in Upper Silesia, every party accusing the other of being responsible for the fact that more than 60 per cent of the votes for

the provincial diet chose the German candidates.

The press of Berlin points to the victory of the Germans as proof that the "terrorism" which was instituted by the chairman in Polish Upper Silesia failed to impress the Upper Silesians. This defeat should teach the Poles to respect the rights of the German minorities, fulfill the promises made to the minorities, and give up the policy of oppression. More than 100,000 Germans left Polish Upper Silesia in fear of the Polish rule between 1922 and this year, but the population today showed that, despite the departure of the leading Germans, the population is against the present régime in Poland.

Want New Referendum.

Democratic Germany hopes the victory of the German element in Upper Silesia will induce the Warsaw government to permit closer collaboration between German and Polish Upper Silesia, which form an economic unit. They also hope the measures taken against the Germans in Polish Upper Silesia will be cancelled.

The German Nationalistic press goes a big step further, claiming that the new elections in Upper Silesia prove the referendum held in Upper Silesia in 1921 gave a distorted picture of the national borders and urge a new referendum.

It's Summer in the kitchen

—the whole year round

IN WINTER as well as summer your home needs Frigidaire electric refrigeration. It makes you completely independent of outside ice supply. It is entirely automatic. There is nothing to start, nothing to stop, nothing to replenish. And it is economical. The electric current it consumes makes but little difference in the monthly electric bill. It saves the cost of ice. And it prevents the losses caused by food spoilage.

Arrange now to end all the refrigeration worry, annoyance and inconvenience you've experienced in the past. Arrange to install Frigidaire. But insure true Frigidaire performance and Frigidaire dependability by making sure it is a genuine Frigidaire—a product of General Motors.

Call at our display room. See the mechanical unit that can be used in converting your present ice-box into Frigidaire. See the complete cabinet models. Get full details of the General Motors convenient purchase terms. Learn how easily you can have Frigidaire. Come in today.

"DRY VICTORY," W. C. T. U. VIEW OF LAST ELECTION

Contrary to the general supposition that has been prevalent, dry sentiment prevailed in the recent elections, it was announced at the national headquarters of the W. C. T. U. in Evansville yesterday after the elections reports had been examined by the national officers.

One of the most pleasing results of the balloting, according to Mrs. Ella Hoole, the national president, was the defeat of Senator Wadsworth of New York. This despite the fact that his Democratic opponent, Wagner, also is wet.

Why They Are Glad.
Wadsworth's defeat has definitely removed the threat of a wet President in the White House," said Mrs. Hoole. He was the greatest wet power in congress.

The defeat of George E. Brennan in Illinois also was a victory for the dry, and an important victory. His election would have been the forerunner of an attempt to get the whole middle west to support the wet cause. The figures show that the wets have reached their high mark in the mid-west.

The referendum vote in California and Nevada and Colorado, and even in Illinois, New York, and Montana—the last three named went wet—was regarded by Mrs. Hoole as favorable.

Recalls California Dry Vote.
On election night it was reported that California was wet by 117,000, she declared. "The final count showed a dry majority of 55,000. Nevada defeated Ray Baker, the Al Smith of the mountains, and the state is safely in the dry column."

HOW \$210 BECAME \$1,000.
A settlement was recently made on a savings and life insurance account in the Harris Trust and Savings Bank whereby a depositor's family received \$1,428.78 on an account which had been carried for twenty-nine months with deposits of \$8.40 per month, making a total deposit for that period of \$243.60. The account was originally opened with the intention of saving \$1,000 by making small deposits in the bank each month, but before the objective was reached the depositor died. Because of the insurance feature of this plan the \$1,000 that was to be saved by the depositor was paid to the depositor's family in addition to \$428.78, representing the bank balance and disability benefits received through this plan.

Any one between the ages of 10 and 70 is eligible for this plan, and any amount between \$1,000 and \$25,000 may be accumulated by making the required monthly deposits. A postcard addressed to the Harris Trust and Savings Bank, 115 West Monroe Street, requesting additional information, will be given prompt attention.—Adv.

WHISKY STOCK SHORT; ANDREWS ASKS FOR MORE

**15,000,000 Gallons
Now on Tap.**

(Chicago Tribune Press Service.)
Washington, D. C., Nov. 15.—(Special.)—Faced with a rapidly diminishing supply of medicinal whiskey and a sharply increasing national appetite for prescription stimulants, Assistant Secretary of the Treasury Mr. Andrews today announced plans for the introduction of legislation permitting the manufacture annually of a limited quantity of medicinal liquor.

Warehouses, it was stated at the treasury department, now hold an estimated 15,000,000 gallons of medicinal whiskey. This is expected to last five years, Mr. Andrews stated, however, that the amount of medicinal whiskey used is now on the increase and it is possible the supply may be consumed in a shorter time.

He said that the number of doctors prescribing liquor has doubled in the last two years.

Mr. Andrews characterized the present situation as an emergency. It

simply means, he said, that unless the manufacture of whiskey is resumed liquor will have to be imported or the time will soon come when there will be no whiskey for prescription purposes. Mr. Andrews emphasized the necessity of beginning manufacture at once so the product will have ample time to age in the wood.

In the new bill, which is understood to have the support of Secretary Mellon, the manufacture of probably 3,000,000 gallons would be permitted annually. Details of the plan are withheld, but it will certainly provide more stringent regulations for the control of medicinal stimulants.

Mr. Andrews would like to have government control of all whiskey stocks. This probably being impossible, he will ask for additional safeguards for its distribution. It is expected that the new whiskey will be manufactured in designated distilleries and held until all the old supply is exhausted. Then all the whiskey will be manufactured and sold under government control.

In 1921 it was estimated that there were on hand 50,000,000 gallons of whiskey throughout the country. Based on records showing the consumption of medicinal whiskey since that time, something like 23,000,000 should still be stored in warehouses. Because of shrinkage, leakage, evaporation, and absorption, it is expected that 8,000,000 gallons of this has vanished.

MINISTERS AGAIN ASSAIL TACTICS OF DRY LEAGUE

The Anti-Saloon league was the subject yesterday of attack and defense at the Baptist, Congregational, and Methodist ministers' meetings.

The Congregational ministers devoted their full time to it yesterday. So much feeling was aroused that after two substitute resolutions were introduced to take the place of the one debated last week, the ministers voted to continue the discussion next Monday.

Dr. Hugh Elmer Brown, pastor of the First Congregational church, Evanston, attacked the policies of the league. He accused the league of being partners in "the Gov. Len Small corrupt political regime."

At the Methodist ministers' meeting the Rev. W. S. Fleming, superintendent of the Illinois Civic league, introduced a resolution commending the Anti-Saloon league, and the resolution was tabled after a speech criticizing the league by Dr. John Thompson of the Chicago Temple.

At the Baptist ministers' meeting Dr. M. P. Boynton, Woodlawn Baptist church, challenged Hugh S. Magill to produce any proof the league is allied with any party or faction.

RUN ON MISSOURI BANK CHANGED INTO JOYFEST

Kansas City, Mo., Nov. 15.—(AP)—A "run" on the Park National bank here was turned into a public reception with flowers and smiles.

The Park National, a neighborhood bank, opened and found 200 depositors lined up to get their money. Every one was paid. When W. J. Bailey, governor of the Kansas City Federal Reserve bank, said the bank was solvent, the assembled depositors cheered.

The Waldo State Bank, a small neighborhood institution, failed to open its doors here today. It was the third bank to close within three days.

The Federal Trust company, a downtown bank with total assets of \$2,000,000, closed Friday and the Terminal Trust company, a smaller bank which had part of its cash reserve in the

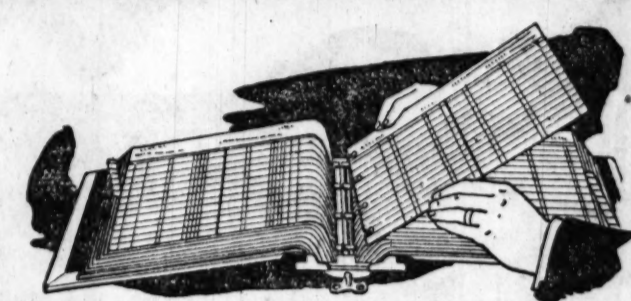

Federal Trust company, closed Saturday.

The Waldo bank was a correspondent bank of the Federal Trust company.

**500 Cab Drivers Granted
Delay in Bond Cases**

Judge Matthew Hartigan, in Traffic court, yesterday postponed until Nov. 18 the cases of 500 Bauer cab drivers who had been given until Nov. 15 to post liability bonds of \$2,500 each. Attorneys for the cab company said the drivers completed arrangements for the bonds a week ago. They predicted that when the cases come up again on Thursday all complaints will be dismissed.

Order from Horder Consult Headquarters for Loose Leaf Devices

Complete Ledger Systems Post and Ring Binders, Minute Books

The De Luxe Line

No other branch of office equipment is as important as Loose Leaf. So Horder makes this a specialty and recommends the best. From the positive, simple binder locking device to the clear and neatly printed pages with patented hinges, De Luxe is superior. But prices compare favorably with items of far less quality.

All De Luxe Devices are made right here in Chicago. And the manufacturer is never satisfied with a De Luxe item until it embodies the best in material and workmanship.

The parts of a De Luxe Binder that you don't see are often finished with greater precision than those in plain view. Yet these carefully machined metal parts are never left exposed to scratch a desk. Such parts are skillfully covered with a long-wearing material, such as leather, corduroy, canvas or keratol.

FREE AND UNPREJUDICED ADVISORY SERVICE

Loose Leaf being a specialty with us, we have developed a large and competent Advisory Department, which includes accountants and experts in the application of Loose Leaf Devices. This department will gladly help you obtain and install any system, from a small merchandise order to a complete corporation accounting system. There is no obligation to buy or any forced or ill-advised sales on our part.

BANKS' PLAN FOR ST. PAUL UNDER FIRE AT HEARING

Sale of Road Is Set for Monday at Butte.

BY PHILIP KINSLEY.

With the sale of the Chicago, Milwaukee and St. Paul railroad system set for next Monday in Butte, Mont., Commissioner Frederick I. Cox of the Interstate commerce commission heard testimony in Chicago yesterday hearing on the underlying causes that brought about the receivership and foreclosure sale of this great system. The hearing was held with the view of obtaining information that may affect the proposed reorganization by New York bankers and the issuance of new securities.

Edwin C. Jameson, president of the Globe & Rutgers Fire Insurance company and chairman of the bondholders' defense committee, holding \$18,600,000 of the junior bonds of the road, which is fighting the reorganization and is expected in some quarters to make a bid for the road next week, was the chief witness.

Calls Banks' Plan Unfair.

He stated that the reorganization plan of Kuhn-Loeb & Co., and the National City bank was unfair, that the receivership was unnecessary and was brought about by the bankers for the purpose of creating a new financial structure, and that the road could not regain prestige and financial strength until it found a man able to guide it better financially and a board of directors more directly interested and representative of stock holding.

J. J. Brinkley, president of the Brinkley Coal company, told the com-

missioner that W. W. K. Sparrow, vice president of the railroad, had asked him to sign the petition which threw the road into bankruptcy, although he had no idea that the road was unable to meet its obligation of \$128,000. He was told that the road desired to reorganize and that a receivership was necessary, he said.

Mr. Jameson told of his efforts to prevent the receivership, and his offer to get an extension of maturing bonds. In this effort he talked with H. B. Byram, former president; Percy Rockefeller, and Jerome H. Hauer of Kuhn-Loeb & Co. While he was in Florida, he said, the receivership was put over. Events since this, he said, have fully confirmed his view that the receivership might have been avoided, and he cited the steady increase in net earnings.

"The receivership," he said, "has meant a default on a large amount of 4 and 4 1/2 per cent bonds and will involve expenses of reorganization which may, under the Kuhn-Loeb plan, go as high as \$10,000,000."

Chief Objections Cited. "One principal objection to the present plan of reorganization," he stated, "is that under it the present junior bondholders are deprived of \$60,000,000 of lien, which is proposed to be placed ahead of their equity and given to the stockholders as a consideration for the money contributed to protect their stock, and furthermore, the junior bondholders are, by the terms of the plan, subjected to a possible assessment by diversion of earned income to the rehabilitation of the road, for \$25,000,000, which is greater by several millions of dollars than the market value of the maximum assessment imposed upon the stock."

"There are other serious objections to the plan, one of which is that it is sought to deprive the St. Paul junior lien bondholders of part of their equity for the benefit of holders of Puget Sound bonds, but the objection first stated above is of the greatest and most general interest to all citizens because, if by a combination of bankers and banking interests and stockholders assisted by a selected group of bondholders, a plan of reorganization can be driven through which has such a result, then no lien of any railroad bond in this country has any real substance and this is a question which should be decided and made known at once."

Calls Words Credited to Foch Untrue.

(Chicago Tribune Press Service.)

PARIS, Nov. 15.—Marshal Foch tonight repudiated his Armistice day interview with a well known Paris journalist, Stephen Lamsanne, which has involved the former supreme allied commander in a controversy on the old question of "Who won the war?"

M. Lamsanne's interview quoted the marshal as explaining how he used diplomacy instead of peremptory orders to induce the allies to work together harmoniously, asserting he had convinced Gen. John J. Pershing the same tactics would be successful in preventing unfortunate incidents when the American Legion members visit France next fall.

Marshal Foch was quoted as relating how in November, 1914, the British and Belgians were planning to retreat. King Albert was declared to have said, "I am responsible to my people for the soldiers and I cannot sacrifice them further."

King Calls Story Untrue. The marshal is reported as telling how he argued with Marshal Haig and King Albert and then leaving them simply with the advice to hold firm instead of issuing orders. He was further quoted as declaring both

the British and Belgians followed his advice as though they had been ordered. In a letter dispatched to Marshal Foch today King Albert protested vehemently that the story was not true.

"I was astonished to read your statement," King Albert wrote to Marshal Foch, "and I take the liberty of recalling my proclamation whose terms marked as a traitor whoever should pronounce the word retreat. As for your document of written advice, I do not recall receiving it. I must at this time renew my expression of Belgium's gratitude for your aid on that occasion, but I am sure you will understand I have a duty to maintain unshaken the deserved merit of bravery and tenacity of my officers, to whom, in the last analysis, the victorious issue in the Year battles was due."

Marshal Foch, upon receiving the

WHY POSLAM HEALS SKIN SO QUICKLY

A very little spread over the irritated skin stops the itching, burning and smarting right away. Then the gentle, wonderfully healing medication in Poslam begins to work. With the irritation gone, the skin at rest, it is easy for Poslam to check the inflammation and clear away the eruption. At all druggists, 50c.

EUROPE FORMS ALUMINUM TRUST TO OPPOSE U. S.

(Chicago Tribune Press Service.)

BERLIN, Nov. 15.—Germany, France, Switzerland, Italy, and England have united in a great aluminum trust, with a total output of \$2,000 tons, in an endeavor to compete with the American concern. The latter has obtained a majority in the Norwegian aluminum works.

The European syndicate has agreed to cut prices to \$25 per ton, about \$100 below the American price, which the duty walls hold high.

Why Architects Specify The HARDINGE

THE architect knows that his client's final and complete satisfaction depends upon the installation of an efficient, economical heating system.

That's why so many architects INSIST upon the Hardinge.

The Hardinge is inexpensive to operate, because it burns cheap fuel oils—converts every drop into clean, healthy heat.

Our free booklet, "The Plain Truth About Oil Burners," will help you in choosing an oil burner for your home. Write or phone for your copy.

Drop in our new display room and see the 22 Hardinge models which architects are recommending for every type of building from modest cottages to towering skyscrapers.

CHARGE INSULL BACKED ELECTION OF GOV. JACKSON

Injunction Suit Filed in
Indianapolis.

Indianapolis, Ind., Nov. 15.—(AP)—Campaign contributions were made to Republican candidates in the 1924 election in Indiana by public utility operators of Chicago and Indianapolis for the purpose of retaining on the public service commission "only individuals who would be unduly and illegally favorable to the representatives of the utilities," it was alleged in an injunction suit filed here today by Alva J. Rucker, corporation counsel.

The suit seeks to prevent a hearing by the Indiana public service commission of the petition for a merger of two local electric power companies.

In addition to charging the utility interests with conspiring against power consumers of Indianapolis, the complaint alleges that, in furtherance of plans to obtain control of utilities in other states, attempts were made to procure the favor of public service commissions and political officers "by liberal donations to campaign funds of governors who had the appointment of such commissions and by donations to campaign funds of members on such commissions when aspiring to other office, including the office of senator in the senate of the United States."

Insulls and Clarke Named.

Utility operators named in the complaints were Samuel and Martin Insull and Harold L. Clark, all of Chicago; Harry Reid and Robert I. Todd, both of Indianapolis. D. C. Stephenson, former grand dragon of the Ku Klux Klan, was also mentioned. A grand jury here now has under investigation charges that high state officials were corrupted by Stephenson.

A campaign fund of \$19,000, the complainant alleges, was paid to Gov. Ed Jackson and John W. McCordie, chairman of the public service commission, during the campaign of 1924, for the purpose of retaining McCordie as a member of the commission and to obtain the appointment of Clyde Jones as another commission member.

Samuel R. Artman, another commissioner, entered the conspiracy, the complaint charges, in order to obtain

support of the utility interests in his race as Republican candidate for judge of the State Supreme court.

The allegations brought denials from Martin Insull in Chicago and from nearly all the Indianapolis men.

The merger which Rucker seeks to prevent is that of the Merchants' Heat and Light company and the Indianapolis Light and Heat company. The former company is owned by the Central Indiana Power company and the Middle West Utilities company, both of which are holding companies dominated by the Insull interests.

DENIAL BY INSULLS

Samuel Insull, Chicago utilities executive, before the senate campaign funds investigating committee which held sessions here, told of contributions of \$25,000 to the primary campaign fund of Col. Frank L. Smith, who was elected senator from Illinois, and other contributions to Chicago politicians, but said he made no other political donations.

This was recalled yesterday by his associates as answer to charges made

Has No Gas Now!

Once a woman of her age had to be careful. Today, she eats anything she wants! A Stuart's tablet—and after eating distressing meals, she is a Stuart's tablet after the heartiest meal, and you, too, can smile at indigestion. Stop all gas and belching. Ends sour risings, belching. A sweet stomach for twenty-five cents.

Every druggist has Stuart's tablets, 25c and 60c. Or, a full box free if you write the F. A. Stuart Co., Dept. N-9, Marshall, Mich. Get a metal box of Stuart's for the pocket—and keep it filled! Hearty eaters—hard smokers—high liveries—end Stuart's a boon and blessing.

**STUART'S
DYSPEPSIA TABLETS**

In Indianapolis by Alva J. Rucker, corporation counsel of that city, that Samuel Insull, his brother, Martin Insull, and Harley L. Clark had contributed \$19,000 to Indiana campaign funds in 1924 and that the money was paid to Gov. Ed Jackson and John W. McCordie, chairman of the Indiana public service commission. Samuel Insull was out of the city.

Martin Insull denied any knowledge of such a payment to any one. Mr. Clarke, president of the Utilities Power and Light corporation, not an Insull associate, was out of the city.

**800 Nicaraguan Troops
Engage Rebels in Big Battle**

MANAGUA, Nicaragua, Nov. 15.—(U. N.)—A new campaign to end revolution in Nicaragua was begun today when the government forces went into battle with 800 Liberal revolutionists near Chinandega, and later organized a force of 800 for a further engagement in the same section. The government troops lost four men, including Capt. Leopoldo Astacio, and seven were wounded.

Who Owns the Standard Oil Company? (Indiana)

Who owns, and in the end who controls the Standard Oil Company (Indiana)?

The ownership is vested in between 50 and 60 thousand individuals and organizations, no one of whom owns as much as 5 1/4% of the Capital Stock. Nearly eighteen thousand of these stock owners, also are employees, doing the homely, everyday duties which have been assigned to them.

The Standard Oil Company (Indiana) is a company of men and women who work. The men holding the most important positions in the Standard Oil Company (Indiana) are qualified for them by an extraordinary capacity for work.

Family or money or "pull" have no place in the scheme of promotion in the Standard Oil Company (Indiana). There are no "promotion plums" in the way of "soft" jobs to be handed out. There is no place in the Standard Oil Company (Indiana) for laziness or incompetence.

The Board of Directors of the Standard Oil Company (Indiana) is an executive body which, to a man, knows its affairs intimately through day-to-day working contact with them.

All of the Directors are company employees. Most of them started well down the ladder. They came up from the ranks doing the common job so uncommonly well that nothing could stop their advancement.

Eighteen thousand of the 50,000 "capitalists" behind the Standard Oil Company (Indiana) are employed stockholders who have so definite an interest in the advancement and efficiency of the Company as to constitute an army of enthusiasts, wise, thrifty, industrious; rich in their capacity for living life to the full, knowing the satisfaction of work and the pleasure of play, realizing the thrill of providing for those they love by careful saving and investing.

They constitute a loyal ambitious group who have seized the opportunity offered by the company of becoming partners in the business. The Employees' Stock Purchasing Plans have been to them an incentive to save and an inspiration to work.

They have shown their appreciation of the company's interest in them by an enthusiasm and efficiency that helps to build enduring progress.

The purpose of the Standard Oil Company (Indiana) to serve the thirty million people of the Middle West is a large purpose with large demands.

It requires capitalists in overalls—every man in the entire organization working—every man doing his job to the very best of his ability.

"THE AMERICAN WEEKLY" IS THE MOST WIDELY READ MAGAZINE IN THE WORLD

In 5,000,000 homes
The American Weekly
helps to
make up the
buying mind

EVERY Sunday morning, from Boston to San Francisco, from Chicago to Atlanta, *The American Weekly* goes into 5,000,000 typical American homes. In these homes live 22,000,000 consumers—the largest single buying unit in the world! The consumers who live in these 5,000,000 homes constitute the most desirable market in America. They are well-educated, well-informed, truly American in their modern view-point and close contact with life. They know the good things of this world, and they want them.

They have the money to buy them, too. These 22,000,000 consumers live in and adjacent to fourteen cities which, in the aggregate, possess two-thirds of the total

wealth of the nation. This money, represented by bank clearings, is actively in circulation, constantly being spent. And it is being spent largely upon those products and commodities which are widely and consistently advertised.

The American Weekly is the only advertising medium which concentrates on this tremendous market. With its peak circulation in fourteen of the most important cities in America, it taps the very nerve centers of national life, the concentration points of wealth and prosperity. And its widespread

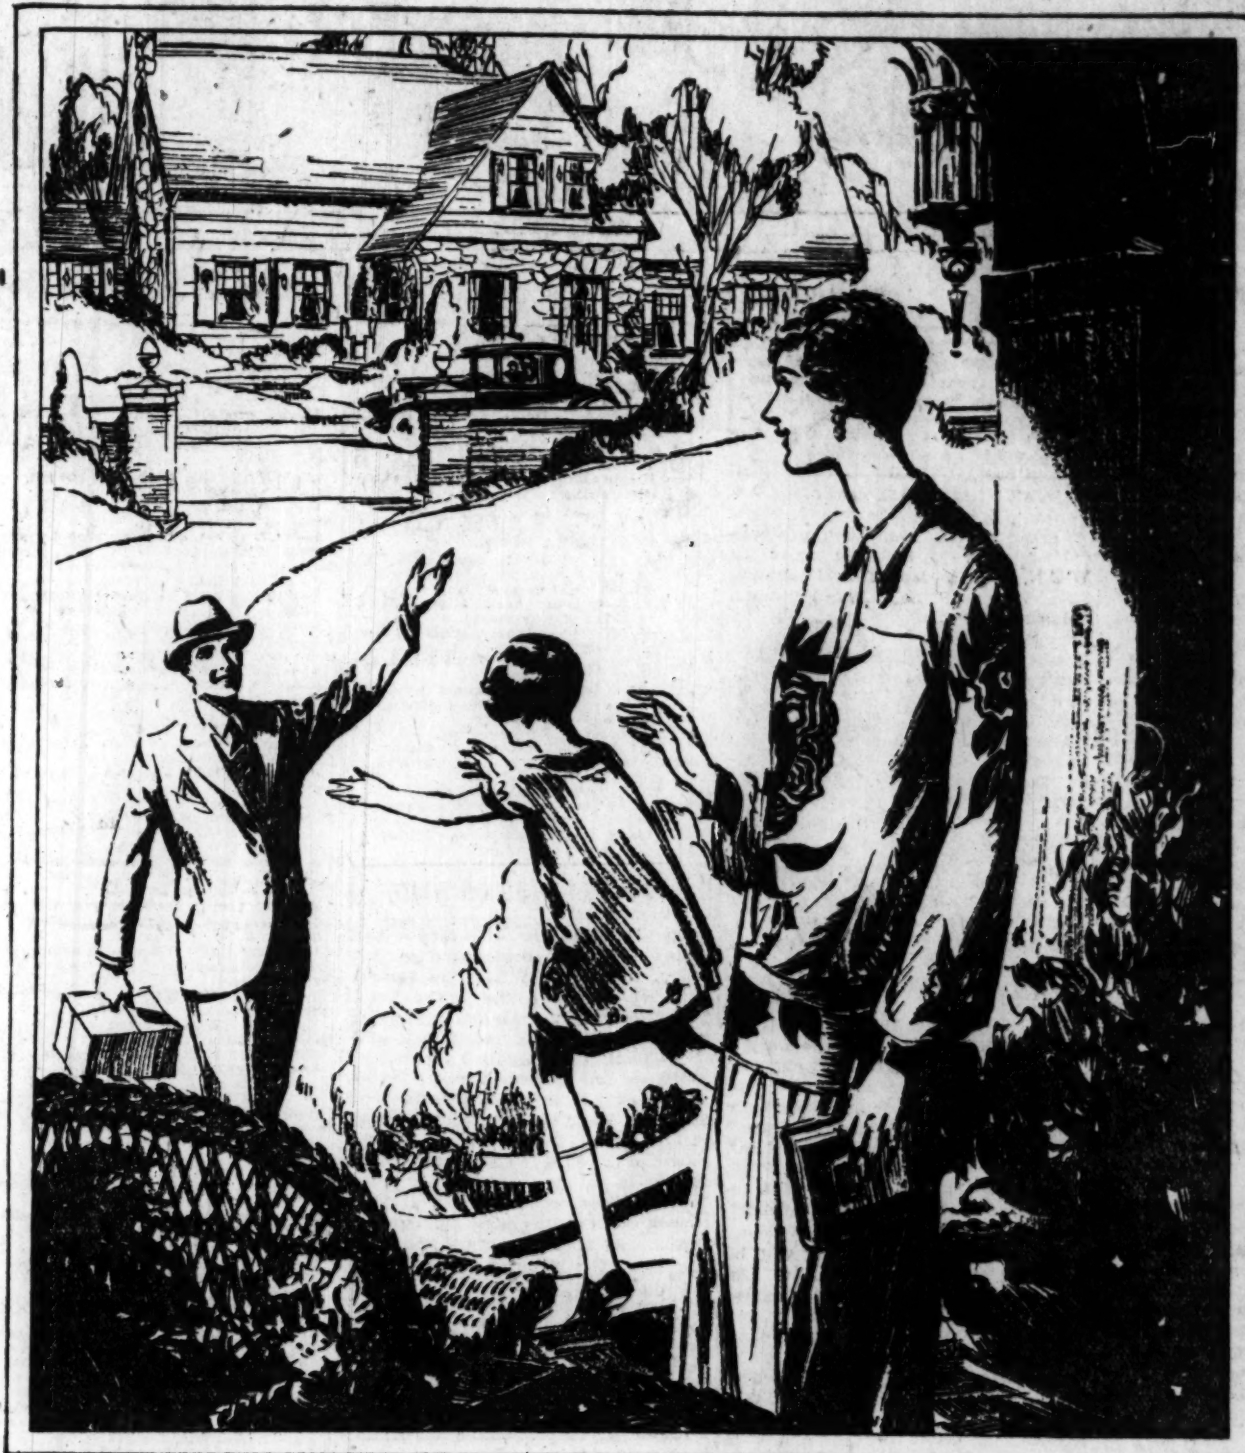

popularity and influence are rooted in the family—the economic foundation of modern civilization. The source of this tremendous influence lies within the magazine itself. For *The American Weekly* contains the liveliest, most interesting reading matter being printed today—fiction, articles, news features, fashions, a household department—everything that a good magazine ought to have, plus the newspaper's distribution and flexibility. Its universal appeal has gained for it a universal audience.

Yet despite its manifold advantages, *The American Weekly* is not an expensive advertising medium. Its rates are the lowest, in proportion to volume of circulation, of all large-scale publications: \$8 per line, \$1.69 milline, \$14,500 for an inside page (black and white), \$15,000 for an inside

color page, and \$16,000 for a back cover in color.

The American Weekly is the only national medium in which the advertiser can take a full newspaper-size page in color. It is the only national medium with maximum circulation in the cities—where enormous buying power is concentrated, and where merchandising distribution is most easily obtained. It is the most effective medium in the world for getting that end and aim of all merchandising—large and lasting results.

Write today to the nearest office (see below) of *The American Weekly*, A. J. Kobler, President, for specific data on the world's most widely read magazine.

The daily purchases of 22,000,000 consumers, all over the United States, are influenced by this great magazine

TELL OF SEIZING FLEEING CONVICTS IN FARM BARN

Posse Members Talk at
Klein Slayers' Trial.

CRIMINAL COURT.

Brian Hanson and Adolph O. Schabstrom, lawless, sentenced to 10 years each in the penitentiary by Judge John J. Sullivan.

John Conrad, hitherto sentenced to 10 years in Pontiac reformatory by Judge William V. Broderick.

Walter Novak, hitherto sentenced to 1 year in Pontiac reformatory by Judge Phil Sullivan.

BY JAMES DOHERTY.

Joliet, Ill., Nov. 15.—[Special.]—The battle of Leonore was pictured today to the jury in Judge Fred A. Hill's court here, where six convicts are on trial as the slayers of Deputy Warden Peter N. Klein, killed last May. The capture of five of the escaped convicts was described by the men who did it. The most graphic story was told by John Carpenter, an automobile mechanic of Streator, Ill., who also was a special deputy sheriff.

"I came to a barn where it was said some of the convicts were hiding," he testified. "I went in with Capt. Clarence Bigford of the penitentiary. We went in in the hay loft and I took a pitchfork and started jabbing into the hay.

Says Stalesky Tried to Shoot.

"A man rose out of the hay and pointed a shotgun at my head and pulled the trigger."

"Do you see that man here in the courtroom?" Prosecutor Rehn asked. "Yes, that's him," Carpenter replied, pointing at Walter Stalesky, who had been sent to the penitentiary for Chicago for robbery.

"I dropped to the floor," Carpenter

continued, "but the shell didn't explode. I had put my gun down when I picked up the pitchfork and it was out of reach. I yelled down to Bigford, 'They are here!'

"Then I went down the ladder. Bigford and his men were over behind a corner. We all fired into the barn to make the convicts come out; then I went back in and called to them to surrender and come down. 'Wait a minute, officer, we'll be right down,' Stalesky came down and then the other Gregorio Rizzo."

Attorneys Francis J. Loughran, A. A. Offerman and Mary Belle Spencer objected to the introduction of the shotgun and the shell. They said that it would tend to prejudice the jury against the defendants. Judge Hill overruled the objection. He had ruled the same way earlier in the day when a general objection was offered to the introduction of the testimony concerning the capture which was attended by the wounding of a policeman at Leonore, Ill.

The defense, led by Attorneys Joseph Klieg, John Garney and William C. Moore, had said it would be harmful to the defendants to show they had committed crimes subsequent to the one for which they are indicted.

the killing of Deputy Warden Klein. Rehn said he had decisions to show that such evidence was admissible. The judge admitted the testimony.

Police chief John Hopkins of Streator, Ill., said he took five men including Policemen Harry Miller and William Exstrom, with him to Leonore.

Miller told of exchanging shots with the escaped convicts in the streets of Leonore. The convicts took shelter behind various objects and shot at the posse, whose members fired from behind trees, telegraph poles and anything else that afforded protection.

Deny Shooting Fallen Convict.

Miller was shot and so was Bernard Rizo, one of the fugitives, who is one of the defendants. Mrs. Spencer, who represents Rizo and Rizzo, questioned the policemen, asking if any of them shot Rizzo while he was lying on the ground. All denied it.

Richard Barthelme's Wife

Hires Paris Divorce Lawyer

PARIS, Nov. 15.—[U. P.]—Mary Hay, dancer and wife of Richard Barthelme, American movie star, arrived today for the purpose, it is reported, of filing a suit for divorce. She has hired a divorce lawyer.

140 GALS. OF OIL EXTRACTED FROM ONE TON OF COAL

German Tells How He
Perfected Process.

Pittsburgh, Pa., Nov. 15.—[U. P.]—Perfection of the process of coal liquefaction has made possible the transformation of from 50 to 60 per cent of the coal into oil by hydrogen under high pressure, Dr. Friedrich Bergius of Heidelberg, Germany, declared at the international conference on bituminous coal, which opened here today.

Dr. Bergius, inventor of the process in 1913, told distinguished scientists, engineers, and technologists attending the conference from all parts of the world that the liquefaction of coal was made economically successful by an expenditure of "some millions of dollars."

"One ton of bituminous coal will yield an average of 140 gallons of oil," he said. "Deducting the coal consumed in the process, the net yield is 104 gallons per ton of coal. Of this, 35

gallons consist of aromatic compounds, suitable for 'no knock' motor fuel, and the remainder is gas oil, lubricating oil, and fuel oil.

"The problems of high pressure, continuous feeding of coal, removal of residue, and temperature control have been solved. A method of manufacture of hydrogen has been worked out employing the gaseous by-products in the liquefaction of the coal itself. Except anthracite, nearly all grades of lignite and coal, especially screenings, can be liquefied."

A picture of American cities free from smoke in the not far distant future was painted by A. O. Fleidner, chief chemist of the United States bureau of mines and superintendent of the Pittsburgh experiment station.

"Fundamental research will hasten the day of smokeless fuel, when the atmosphere of our cities will become free from smoke, thus eliminating a source of economic loss," Fleidner asserted. "Health and the amenities of life generally will be greatly improved, and we will wonder why we tolerated such barbarous conditions for so long a period."

TRAIN KILLS FARMER IN AUTO.

Keokuk, Ind., Nov. 15.—[Special.]—An automobile driven by James Corbin, wealthy farmer, was struck by a train today. Corbin was instantly killed.

Coal Prices Go Up! Fuel Oil Prices to Go Even Lower!

Bigger Economy Added to
Amazing Comforts of Oil Heat

One more good reason why
it will pay you to install
the Berryman Oil Burner

Fuel oil is more plentiful than ever before! That can only mean even lower costs than the already reasonable prices of home heating oil.

Soft coal has gone up to \$10.00 a ton! Hard coal is going up to nobody knows what price. The long coal strike in England has caused a world-wide shortage. No settlement is in sight. Billions of dollars are being lost. Somebody must pay! Now with Winter at hand, coal prices may go still higher. Home owners not equipped to burn oil will have to pay the exorbitant prices of strike coal!

Why should you be penalized? Why should you pay for the coal strike with your hard earned money? There is a far better way to heat your home! Modern folks don't shovel coal all Winter and then shovel out the ashes. The Berryman Automatic Oil Burner heats their homes. It takes care of everything automatically—better than any janitor could. The temperature in the house is always just where you want it. And the yearly cost of heating your home this way is even lower than with any other method.

Here is what "Fuel Oil," the authoritative trade periodical on fuel oil market conditions, says in its November issue:

"Supply Mounting—
Prices Are Slipping

"The statistical position of fuel oil and furnace oils indicated last month that the peak of fuel oil prices was at hand. The peak for fuel oil proved to be \$1.45, the point at which it was stated that we could expect to see lower prices. Since then, the price for this grade, has declined ten cents a barrel at Mid-Continent refineries; now quoted furnace oil prices are being maintained around levels established last month; it is noted that this market is becoming very spotty and refiners in many sections are starting to shade prices. Market-wise buyers of industrial fuel oils continue to buy only for current needs, as the facts indicate that prices will continue to work to lower levels.

"Stocks of fuel oil at U. S. refineries now total 26,500,000 barrels, an increase of 804,000 barrels over last month. Production is holding up above 31 million barrels a month, and imports are increasing. This mounting visible supply and the possibility of an early reduction in crude oil prices, clearly indicates a lower fuel oil market.

"In the New York papers a large advertisement is appearing over the name of the Standard Oil Company of New York, which calls attention to the fact that there is little to worry about regarding the supply of furnace oil. According to their advertisement there is a plentiful supply available for immediate delivery. Those in close touch with the oil situation believe that the supply is adequate for all needs, but advertisements such as the one quoted will aid materially to dispel any lingering doubt in the public mind, which has been brought about through unwarranted rumors.

"Everything points to lower prices in the immediate future."

This is how the Berryman Automatic Oil Burner heats your home. You set the thermostat in the living room to the exact degree of temperature you want. The Berryman Burner will keep that desired temperature automatically and economically because it only burns when the heat is needed. No matter how the weather changes outside, you remain comfortable inside. Your satisfaction with the Berryman Oil Burner is guaranteed by the manufacturer—and this satisfaction is attested to by thousands of users during the past eight years.

A Two Months' Trial
A two months' trial in your home will show you just how automatic and carefree the Berryman really is. This trial obligates you in no way. It is offered merely to help you decide which is the most efficient and economical method of heating your home. At the end of the 2 months if you should decide not to keep the Berryman, your furnace or boiler will be restored to its original condition and you will not be out a penny.

Mail the coupon below for interesting information about heating the home with oil; or call for a demonstration at your nearest Berryman dealer.

Out of town inquiries about the efficiency and economy of the Berryman Oil Burner are welcome.

BY THEIR FLOORS YE SHALL JUDGE THEM

LOOK at your floors! Are you proud of them? Would you be willing to have friends or casual visitors judge your neatness, industry and house-keeping efficiency by them?

Hardly a woman would be satisfied with the verdict. And yet any floor can be made so beautiful, so wonderfully clean and lustrous—and kept that way so easily—that it is as glaring a fault to have dull, dirty or scratched floors as to have soiled draperies or finger marked furniture.

Perfection of the FINNELL Electric Floor Machine for household use brings to the housewife the machine that has been cleaning, polishing and maintaining floors in business for twenty years. It gives you, for less than the price of one refinishing job, a machine that will restore your floors to their original beauty and keep them that way every day in the year. It will give you floors that will win the compliments of family and guests. And ten minutes a week per room will keep your floors looking new all the time, with none of the tedious hand work of the old methods.

The FINNELL applies the wax—just the right amount. No hand work. No missed places. It distributes the wax evenly. It saves two-thirds of the wax. Does the work in a third of the time.

The FINNELL polishes—Three powerful brushes rotating 230 times a minute, rub the wax in. No surplus wax on the surface to rub off on clothing, rugs or furniture. Polishes linoleum too. Keeps it bright and new and prolongs its life.

The FINNELL refinishes when needed—it removes old varnish. It sands the floor—free from all grit, grime. Then it applies the wax and polishes to a new lustrous finish. Do the work yourself and save outside charges.

The FINNELL scrubs—Any kind of floor—wood, tile, terrazzo, concrete, etc. No splashing or slop-

ping. Clean water for every inch. Scrubs clean in a fraction of the time.

For Christmas

To husbands! Include a FINNELL among your gifts to your wife. Few so called "useful gifts" could be as appropriate. The FINNELL is such a great labor saver. And every compliment the floors win will be a compliment to your thoughtfulness. Besides! The FINNELL will save you money.

Free Demonstration

Telephone or write for a demonstration of this wonderful time and labor saver. Or rent a FINNELL and refinish your floors. Simply check coupon and mail it at once.

For Business Use, Too

The larger FINNELLS are known and used all over the world in stores, factories, hotels, office buildings, etc. If interested in larger models, check coupon below for "Your Questions Answered by Users."

MICHIGAN RACE FOR BIG 10 TITLE

BOGUS SERVICE
GAME TICKET
LOCATED HEREClipped Picture Is
Found on Street.

BY JAMES CRUSINBERRY.

Any one who purchases an Army-Navy ticket from a stranger should examine the pastboard carefully because there are counterfeiters in circulation. At least there is one, because it is in the possession of THE TRIBUNE.

This ticket was found on a street in Evanston by a friend of Harvey Woodruff and turned over to him. It was a valuable fake and rather crude in construction, but there is no assurance that some one didn't attempt to sell it before losing it or throwing it away.

Might Fool Purchaser.

There would be no chance of any one passing through the gate on it because it is wrong in both size and color though an exact duplicate otherwise of a regular ticket. Some unsuspecting purchaser might be fooled into buying it.

Although only one bogus ticket has been found, there may have been others made and sold. The prices now being offered would prove tempting to such a counterfeiting enterprise.

The ticket was taken to the engraving plant where the Army-Navy tickets were printed and it was proven to be a counterfeit. Then it was learned that a Chicago afternoon paper had printed a picture of a genuine ticket last Friday. In comparing the counterfeit with the picture the mystery was solved. The same numbers, including the row, section, and seat, were on the counterfeit as were in the picture.

Picture Clipped from Paper.

Some one had clipped the picture—the front and back of the ticket—and had pasted them on a piece of cardboard that had colored the paper blue, because the tickets for that section of the arena were printed on blue cardboard, though a much lighter shade. The figures on the ticket as printed in the newspaper naturally were black, while on all the genuine tickets the figures are in red. The counterfeit ticket called for seat 15 in row 25 of section 113.

PRICES O. K.—WILBUR.

Washington, D. C., Nov. 15.—(AP)—Ole Wilson, D. C., Nov. 15.—(AP)—

One of the protests registered by officials here came from a member of congress, who objected to Secretary Wilbur's plan to charge the \$10 and \$15 scale fixed by local authorities in Chicago, where the game is to be played, is beyond the means of the ordinary football fan.

No objection to high prices.

The sale of the big block of tickets allotted to Chicago authorities is regarded by the war and navy departments as none of their affair, however, and no objection to high prices is seen here so long as the public is eager to pay.

Neither department has any tickets to sell. The governmental quota has been allotted as usual to graduates of the war academies and to public clubs, who get limited quotas at \$2.50 and \$2.50.

O. K. with Wilbur.

Drawing on his Pacific coast experience, Secretary Wilbur said he was not willing in charging \$10 to see an Army-Navy game when "they charge as much as \$5 to see a Stanford-California game."

"A price must be set," said the secretary, "and since the Chicago south park commission was the only body willing to underwrite the expense of the game I think they are justified in asking enough to get a fair return."

N. D. Parades to
Honor Team That
Humbled Army, 7-0

Notre Dame, Ind., Nov. 15.—(Special)—A two mile march of nearly three thousand men led by the Army music today climaxed a gigantic welcome which Notre Dame gave its conquering team returning from a 7 to 0 victory over West Point.

The entire school arose at 4:30 this morning and marched to South Bend through a steady downpour to meet the train which was an hour late.

The Irish came through the tough gauntlet in good condition, the only injuries being a wrenched knee sustained by Joe Maxwell, which will keep him out of the next two games.

THE GUMPS—GENTLEMEN PREFER BONDS

Tigers and
Harvard Plan
Peace Parley

Princeton, N. J., Nov. 15.—(Special)—Harvard and Princeton have taken the first step toward negotiating a peace conference between the two universities.

At a meeting of the Princeton senior council tonight the invitation presented by the Harvard student council for a joint meeting between a committee from Harvard and one from Princeton was unanimously approved, and Joseph Prendergast, chairman of the Princeton senior council, was delegated to send a telegram to that effect.

The Harvard invitation came as a result of a message sent by the Princeton senior council to the Harvard student council in which it was asked that there be a definite understanding as to the feeling of the two universities.

Joseph Prendergast said that no committee has been appointed by the Princeton senior council as yet, and that a place for the meeting has not been chosen. He suggested, however, that the meeting be held in New Haven on the occasion of the Yale-Harvard game. It is known that the Harvard Club of New Haven has such a conference.

Ohio State university will replace Harvard on the Princeton football schedule next year, playing Nov. 5, according to the list made public tonight by Dr. Charles W. Kennedy, chairman of the board of athletic control of Princeton. The agreement with Ohio State is for a single year only.

The complete schedule follows: Oct. 1, Amherst; Oct. 8, Lehigh; Oct. 15, Washington and Lee; Oct. 22, Cornell; Oct. 29, Williams; Nov. 5, Ohio State, and Nov. 11, Yale.

HUSSEY, DE PAUL PILOT, OUT OF ST. VIATOR GAME

There was no practice for the varsity at De Paul yesterday, Coach Anderson giving the team a rest following the victory over Valparaiso.

The coach announced it was the last day from practice for the Blue Demons before the game with St. Viator to be played here Thanksgiving day.

Eddie Hussey, De Paul's quarter back, is in the hospital with two broken ribs and a fractured ankle, and is out of the game for the balance of the season. Sargent, who has been working as second string quarter, may play against St. Viator.

MIKE MTIGUE
KAYOS VADABECK
IN THIRD ROUND

New York, Nov. 15.—(AP)—Mike Mtigue, former light heavyweight champion, knocked out Billy Vadabek of Bayamon, N. Y., a former sparring partner of Gene Tunney, in the third round of a ten round match here tonight.

A sharp left to the head, followed by a crashing right smash to the chin, dropped Vadabek for the full count.

Nelson Wins in Chicago Handball League Match

Four games in the Chicago Handball league were played yesterday on the Chicago Athletic association's courts.

Louise Nelson of the Elmwood A. C. beat Hugo Le Gros, 21-7, 21-11; Harry Berkman, representing the home club, defeated I. Sherman, Fort Dearborn club, 21-8, 21-3; Ralph Thoren, Kilmock, beat Collie Pearson, Loyola university, 21-10, 21-11; and C. C. Berghem, Kilmock, won from Martin McElfitt, police department, 21-14, 21-14.

Suggs Loses Decision to Honeyboy Finnegan

Boston, Mass., Nov. 15.—(AP)—Dick (Honeyboy) Finnegan of Dorchester won the decision over Chick Suggs of New Bedford tonight in a 10 round bout billed as a battle for the world's featherweight championship.

Mandell Knocks Out Ray Moore in Sixth

Louisville, Ky., Nov. 15.—(AP)—Sammy Mandell, world's lightweight champion, knocked out Ray Moore, Chicago, in the sixth round of their twelve round bout here tonight.

8,000 WILL SEE
LID TILTED ON
HOCKEY SEASON

Local Team Back Today from Training Camp.

BY FRANK SCHREIBER.

Professional hockey will make its bow to Chicago before a packed house tomorrow night, according to officials of the Blackhawks. The Hawks will usher in the National Professional league season playing the Toronto St. Patricks on the new artificial rink at the Coliseum in a charity game, the proceeds of which go to the Chicago Junior league.

All of the choice box seats around the rink have been sold for more than a fortnight and when the advance sale of tickets was halted yesterday afternoon only a few of the 5,000 seats in the arena remained unsold.

Blackhawks Arrive Today.

The Chicago squad of fifteen players, led by Manager Pete Muldoon, will arrive this morning from Minneapolis, where the men underwent two weeks of rigid training, during which three practice games were played. Tonight the Hawks will take their first workout on the new Coliseum rink.

St. Patrick's sextet also will arrive this morning and a drill has been arranged for the Canadian team for this afternoon.

While the names of the Blackhawks players mean little to Chicago, the men assembled by Manager Muldoon are among the best known players in the game. The starting lineup for the first battle will probably be composed of Hugh Lehmann at goal, Gordon Frazer and Bob Trapp at defense positions, and Mickey McKay, Babe Dye and George Hay at forward positions.

Toronto Team Strong.

The Toronto team, coached and managed by the veteran Mike Roddin, also has several widely known players in its lineup. In Coach St. Patrick's boast one of the finest goal tenders in America, while Brydges, Denney and Scott all are known as speedy skaters and great offensive players.

The National league season will open in three cities tonight. Montreal Maroons will play New York Rangers at Montreal, the Montreal Canadiens will play at Boston, and New York Americans open at Pittsburgh.

The Chicago Cardinals of the American Hockey association yesterday announced the signing of Stuart Dunsmuir of Toronto for a forward position. The Cardinals play their first game in the Coliseum Sunday night and the squad will arrive home today from Toronto where they have been training and will work out during the afternoon on the Coliseum rink.

Huskers Nabbed in Poker Raid; Face Suspension

Lincoln, Neb., Nov. 15.—(AP)—University of Nebraska football team, free from the injury flux for almost the first time this season, now faces the danger of losing John "jug" Brown, half back, and one of the most consistent ground gainers in the west, via the suspension route.

Brown, together with Roy Mandery, substitute half back, and five other students and two other men on charges of gambling early this morning. While university authorities have not taken action against them, Dean George R. Chatham said all students would be suspended from school if convicted at their hearing next Saturday.

Police Lieutenant Joe Rymer said that \$271 was taken from the students when they were searched.

SPEAKING OF
SPORTS

BY DON MAXWELL.

Eddie Collins has been let out as the manager of the White Sox. Ray Schalk has accepted the job. The passing of one of the greatest infielders that ever lived from Comiskey's roster excited one day's comment in the newspapers.

Collins' demise came when the public was thinking of football games. Baseball is on the shelf.

Collins' departure from the White Sox leadership deserved more than a "what if it?" attitude. And yet the baseball writers who knew him best say that he was largely responsible for the comparative little space given him.

They say that with Collins, baseball was a business based on dollars and cents. Babe Ruth is a showman. Ty Cobb, whose resignation as the leader of the Detroit team got nationwide attention, was a showman. Romance was built around his name.

There was none around Eddie Collins because Collins didn't want it. Newspapersmen can't ballyhoo a player who won't let them know him. And Collins didn't want reporters as close friends.

Friends of Collins have been wondering why a man who did as much for baseball as he, wasn't permitted to resign. They point out that although it was reported months ago that Cobb was through, the club officials persistently denied the rumors. Cobb may have been fired as manager of the Tigers, but the club announced that he had quit voluntarily.

In contrast Eddie Collins was quoted as saying that the announcement made in Chicago of the appointment of Ray Schalk was his first notification that the White Sox job was gone.

Baseball men admit the club was justified in making the change in managers. Collins was an aggressive leader when he was playing, but as a bench boss he seemed to lose his hold on the men. The experts think Eddie failed to get the most out of his team when he wasn't in the lineup. And the experts probably are right.

And yet it seems a bit unhappy that Collins was fired. Couldn't he, like Cobb, have resigned?

Numerous incidents are recalled by the reporters of Collins' failure to control his men as a bench manager. One day he called to an outfielder, ordering him to run out batted balls. The outfielder yelled back and spectators heard him.

"O, the devil with that stuff. I could see that he (meaning the infielder handling the ball) wasn't fumbling."

White Sox players have laughed at Collins for being a lunch manager. When he followed his hunches some of his men considered his orders foolish. Collins was a hard manager because he was superstitious. It was this superstition that made him carry a wad of gum on the button of his cap.

After two strikes he always moved the gum from the cap to his mouth.

Schalk is a splendid fellow. He's a courageous smart and peppy player. He should be able to command the respect of his men. He knows baseball as well as any man. But he needs players. The gap caused by the passing of Collins is there and a pitcher and an outfielder wouldn't be turned away.

Whether the White Sox will let Schalk get the men he wants is the principal point. The reporters say Comiskey didn't do it for Collins. They think Collins' own party may have been due to his talk on this score.

Last season he didn't make any attempt to hide his disgust at the material given him. He told club officials that he couldn't be blamed for wanting to get rid of his rookies who had no chance in a high class minor league.

Naturally the chief reason for the banishment of Collins was the disclamation of the White Sox to pay a high salary for a nonplaying manager. That is matter of business judgment and the club can't be blamed for wanting to get all it can for its money.

The baseball writers seem to think that Eddie will sign with the Philadelphia Athletics. It was his Connie Mack's team that Collins began his career and it may be with Philadelphia that he'll finish it. Collins is wealthy, his friends say, and if he continues in baseball it will be from choice.

No matter where Collins goes the baseball fans of Chicago will join their good wishes for Ray Schalk's success to good wishes for the manager he succeeds, the manager who was "fired."

DEFEATS PERIL
"C" AWARDS TO
MAROON PLAYERS

Stagg Tells Gridders They Haven't Earned Letters

Four conference defeats in a row has caused much anxiety on the part of Maroon players over the annual "C" awards, according to the campus gossip.

The squad, cautioned by a few words from Coach Stagg before the game with Northwestern and dangerously aware of the sparring war in which the Maroon director has handed out letters to members of losing teams in the past, is worried.

According to members of the team, just before the battle with the Purple, and as his final stroke in preparing his men for the game, the Maroon director told his boys that on their previous showing against Penn, Purdue, Ohio, and Illinois, none had worked well enough to receive a letter and that he would award the "C" this season on the basis of the showing each man made against Northwestern.

After the game it is reported he told his players they were responsible for the greatest football disgrace Chicago has suffered in its thirty-four years of coaching.

A regular declared last night that the team is worrying more about who will receive letters than about the Wisconsin game. Three years ago, when the baseball team failed to win a conference game, Stagg refused to award a "C," and postponed the trip to Japan until the team snuffed out of its lethargy and placed second in the conference the following year.

Anderson Jo Play.

Kyle Anderson, the whole works against the Purple until he was taken injured from the game, returned to a suit, and worked out with the squad last night. It was announced he will be able to play against Wisconsin.

BADGERS TRY PLAYS

Madison, Wis., Nov. 15.—(Special)—Encouraged by the 26 to 19 victory over Iowa, the Badgers this afternoon started preparations for the annual invasion of the Midway to play Chicago Saturday. From the businesslike way in which George Little opened his drill for the final game of the season it was evident he is taking but small consideration of the Maroons' overwhelming defeat by Northwestern.

The Camp Randall practice fields were sloppy, and not wanting to waste a day of practice slipping about in the mud, Little took his first string men to the arena of the university stock pavilion for an intensive drill on the formations with which he hopes to repeat last year's victory over Coach Stagg's men.

Race Is Five Miles.

L. H. Stearnman of Erie Island, who runs for the Epworth league of the Methodist Episcopal church, is another entrant who writes he has been training three weeks for the Tribune's cross country race and that he hopes to be somewhere among the leaders at the finish.

Stearman was the half mile runner in the Rock Island League games and he wants to try his hand at the longer distance.

The race will be five miles, over 18 hurdles, on a course surveyed in Washington park. Prizes will be a silver cup for the winning team, a silver cup and a gold medal to the individual winner, nine more gold medals to the next nine to finish, then ten silver and ten bronze medals.

Race Open to All Amateurs.

Any amateur who wishes to enter only requirements being that he must be an entry and he must be registered with the Central Amateur Athletic union. Clubs may enter any number of men, but only the first five to finish will count in awarding the team trophy.

Any amateur who wishes to enter and is not registered with the C. A. A. U. may obtain a registration application blank at The Tribune Tower or in the Tribune Public Service bureau, which has been moved to the basement of the want ad office at Madison and Dearborn streets. The C. A. A. U. requires a fee of 25 cents for registration. There is no charge by THE TRIBUNE to enter, but it is necessary that every entrant be registered as the run is officially sanctioned by this governing body of amateur sport.

Herbert Joesting (left), who made 180 yards in 21 minutes against Butler, and Coach C. W. Spears of Minnesota. Joesting has made 843 yards from scrimmage in seven games this year.

Youngsters to
Challenge Age
in Trib Race

BY HARLAND ROHM.

From the early entries received for THE TRIBUNE'S fourth annual cross-country run it appears there will be a real race in prospect for the fans at Washington park the afternoon of Nov. 28, with youngsters challenging the established stars for the leadership. Several of the entries received thus far are from young runners who are likely to set a stiff pace for the veterans.

One of the younger men who seems slated to get "going somewhere" is Jack A. Tipold of Welles park. He is a full back in the Big Ten. But he pays dearly for his sport.

Herb is the most carefully handled player on the squad. It takes more time, tape, and game to put him in playing trim than it does all the other players put together. It isn't that he is afraid of mousing himself. It's a case of necessity. His back is so tender and his skin so delicate that he is a mass of bruises from the time the football season starts until it ends. Even a slight practice scrimmage mauls him. His skin slides off his body like bark off a birch tree; hence the need of giving him plenty of attention on the trainer's table.

Although handicapped by the thought that just about every play means a fresh bruise or the loss of a few additional square inches of skin, the young man shows no fear. In fact, his intimates say they have never known him to express fear over anything or to worry about an important football game, and Coach Spears credits him with a heart of steel. He hasn't missed a game in his two seasons with the Gophers.

Not unlike many other grid stars Red Grange included, Joesting has the "isolation" complex. He is seldom found in a group of students, never talks much about anything, least of all himself, and can get away from a social function faster than a cat can leave a tub of water.

Joesting's halls from Owatonna, Minn., and weighs 195 pounds.

Brooklyn Drops Clabough, Ex-Minor League Slagger

New York, Nov. 15.—(AP)—Big Moose Clabough, creator of a new world record for home runs when he hit more than 50 in the East Tennessee league last season, has been released by the Brooklyn Robins.

No More Tickets

MINNEAPOLIS, Minn., Nov. 15.—(Special)—Determined to get tickets for the Minnesota-Michigan football game here Saturday, 25 fans lined up at the stadium ticket office at midnight to await the opening of the sale today. A little more than two hours after the sale started the last of 4,500 tickets was sold and hundreds were turned away.

Blankets and bottles of coffee were carried by the early birds, whose numbers were augmented hourly despite the fact that tickets until the line stretched an eighth of a mile before the ticket sale started.

BY WALTER ECKERSALL.

Northwestern and Michigan, leaders in the western conference football race, will know Saturday night whether they will share title honors or whether either will be crowned champion.

Northwestern meets Iowa at Iowa City and Michigan goes to Minneapolis to tackle Minnesota.

If past performance counts for anything, Northwestern returned victor over Iowa. Coach Ingwersen and his assistants will revamp the Hawkeye eleven in the hope that the new combination will spring out of the mud upsets of the year.

If the Purple is victorious it will have a perfect conference standing and will be entitled to equal recognition with Michigan in the event the Maine defeats Minnesota.

The Michigan-Minnesota battle should be a thriller. Since they were defeated by the Wolverines, 28 to 0, earlier in the season, the Gophers have improved amazingly. Witness their tapestry victories over Wisconsin, Iowa, Wabash, and Butler for evidence.

Defense Worries Yost.

Michigan knows it will have a battle. Following the Ohio State game, which Michigan won, 17 to 10, Yost realized his defense must be strengthened to stop the Gopher backs, Joesting especially. The Buckeye line and off the tackle. The Minnesota backs will do the same, unless Michigan presents a stronger defense.

Other conference games Saturday will have no bearing on the championship. Wisconsin will come to Chicago to meet the Maroones, who will entertain Ohio State at Champaign, and Purdue and Indiana will clash at Lafayette in the home coming struggle for the Bollingerback, who are choosing one of the most successful seasons in years.

Brown, one of the undefeated eleven of the east, will meet the State of Providence in a game which the former should win. On Thanksgiving day, however, Brown will get a severe test against Colgate. Navy, Pennsylvania, and Washington and Jefferson, other undefeated eleven along the Atlantic seaboard, have no games scheduled. The Yale-Harvard game at New Haven will command major interest.

Drake at Notre Dame.

Notre Dame, which kept its record clean by defeating the Army last Saturday, 13 to 0, will play an intercollegiate game at South Bend. Notre Dame will meet Carnegie Tech at Pittsburgh Nov. 27 and Southern California at Los Angeles on Dec. 4.

In the Missouri Valley, Nebraska, which defeated Kansas Aggies last Saturday, 13 to 0, will play an intercollegiate game with New York university at Lincoln. The Cornhuskers usually are strong at the close of the season. Title has been shown by victories over Notre Dame in other years.

MICHIGAN ANXIOUS

Ann Arbor, Mich., Nov. 15.—(Special)—Four down and one to go. Then the championship. This is the new cry at Ferry field as Michigan's football squad settled down to its last three days of practice today.

All of the men who played for Michigan last Saturday came out of the game without serious injury. Although Michigan has played four of the strongest teams in the conference, it is generally agreed among the members of the squad that the hardest game of the entire season remains.

SNOW SLOWS GOPHERS

Minneapolis, Minn., Nov. 15.—(Special)—The Minnesota football team had to work on a snow and rain soaked practice field this afternoon when it began the last week of preparation for the Michigan battle Saturday. The inclement weather slowed up practice considerably as Spears wouldn't take any chance with hard scrimmage for fear of injuring his men.

The freshman were brought out for an hour of defensive work for the variety.

LOW ON CHIN SLOWS DAVIS; HILL WINNER

Gottfried and Blatt Box Draw.

Johnny Hill, the Filipino featherweight, won the referee's decision over Davis of California in the main event of Jack O'Keefe's boxing show at the Madison Gardens arena last night. The Filipino won seven of the ten rounds. Davis took two while one was even. Two thousand attended.

Davis won the first round and the second was about even. Hill caught Davis flush on the chin with a right swing in the third and Don staggered into a neutral corner. He went into a clinch and the bell saved him from further punishment.

Davis Takes Fifth.

Davis recovered during the one minute intermission and nearly held his own in the next round. Davis won the fifth, but Hill had the edge in the remaining sessions. Johnny used a back hand slap cleverly. At long range Hill was the master. Davis did his best work at close quarters. Hill scaled 125 pounds and Davis 124½.

In the six round semi-windup Hill outboxed Davis and Ted Blatt won six rounds to a draw. It was a slugging match most of the way. They weighed 140.

Cooperman Stops Becker.
Jimmy Cooperman stopped Joe Becker in the third round of the opener. The referee called off the uneven contest when Becker was unable to defend himself. They weighed 122 pounds. Sonny Lloyd of South Chicago won the decision over Bobby Allen of Chicago in the second preliminary of six rounds and Jackie London was given the verdict over Paul Langley of St. Paul in another six round event. Henry Case of New York easily won the decision over Snake Aquilino in the other preliminary.

RUDOLPH GIVEN FIRST DEFEAT IN CUE TITLE MEET

Philadelphia, Pa., Nov. 15.—(AP)—Harold Pindie, Appleton, Wis., today won his second cue title in the state in a game in the tournament. Pindie defeated Charles Harmon, Glendale, L. I., 125 to 8, in 11 innings. Harmon has failed to win a game in the tournament.

Tommy Hueston, New York, administered the first defeat in the tournament to Edwin Rudolph, Chicago, 125 to 10, in 11 innings. Hueston was leading his opponent, 104 to 3, in the fifth inning when Rudolph rallied, making runs of 11, 18, and 29.

Francis Natale, of Baltimore, springing a surprise by coming from behind and defeating Frank Taberski, Schenectady, N. Y., 125 to 96, 5.

Overflow from Illinois River Balks Hunters

BY BOB BECKER.
Although the Illinois river has receded about ten feet, there still is too much overflow on the bottom land waterfowl to make the best duck hunting along the lower river, according to reports from guides downstate. One Northwest guide and duck hunter writes that he can't reach his feed pens and blinds, except with a long pole, as several feet of water cover his streams, which in normal times is one of the best shooting spots on the river.

At Bath, one of the best shooting places for free lance hunters is partly flooded, while thousands of ducks are passing through the flooded cornfields and waiting fat on the crops that were submerged a few weeks ago.

Although mixed bags are the order of the day at this particular place near Bath, the boys are not getting real shooting because mallards, sprigs, mallards, redheads, canvasbacks, and gray ducks are enjoying the free supply which the flood provided. They are waiting on the crops that were submerged a few weeks ago, as conditions warrant the assumption that there will be some "dandy" sport after the first of next month.

MOON MULLINS—MAKING HIS WAY

A. A. U. Board O.K.s Paddock Sprint Record

Baltimore, Md., Nov. 15.—(AP)—The Amateur Athletic Union annual convention today ratified the world's record sprinting performance of Paddock for 100 yards and of Roland Locke, University of Nebraska, star, for 220 yards, but closed the door to acceptance of further records timed by tenth second watches.

The expected fight over acceptance of the records themselves—9.5-10 seconds for the century by Paddock and 20.5-21 seconds for the furlong by Locke—failed to materialize. Both were ratified without objection but it was only after spirited debate that the convention voted to take, after next Jan. 1, the type of watches that registered these performances and to re-adopt as official the fifth second timepieces.

ROLAND LOCKE.

I. A. A. F. Refuse Marks.
The International Amateur Athletic federation holds the tenth second watches to be inaccurate. It was this attitude that prompted the decision of the A. A. U. As a result, the marks of Locke and Paddock, while they go on the books officially as American standards, face likely disapproval when they are submitted to the I. A. A. F. for recognition as world's records.

All told, the convention today ratified an array of 159 record American performances in track and field and swimming out of an original list of 217 applications. The most conspicuous records falling of approval were the pole vault marks of the Norwegian star, Charley Hoff.

Probe Paddock's Amateur Status.
Paddock also had his amateur status under question today. This resulted from the use of his name and photographs in connection with an advertisement for gasoline in a Sacramento (Cal.) newspaper. The committee put the matter in the hands of Robert S. Weaver of Los Angeles for investigation.

The other outdoor track and field records approved were the two mile relay mark of 7 minutes 41.4-10 seconds, set by the Boston A. A. at Philadelphia last July, also constituting a world's record, and the pole vault mark of 13 feet 5½ inches, made by Lee Barnes at Los Angeles in February.

Gargathy Gets Nineteen Marks.
Among the swimmers, Agnes Gargathy, breast stroke star of the Women's Swimming association of New York, led the record breakers with 19 new marks placed to her credit. Arne Borg, Swedish performer, who wore the colors of the Illinois A. C. here, was credited with 15, and Johnny Weismuller, a clubmate, with 13. Ethel Lackie and Sybil Bauer, both of the I. A. C., gained eight and five records, respectively. Erich Rademacher, German breast stroke star, received credit for seven marks.

In the WAKE of the NEWS

FOOTBALL CHATTER.

It was fate for Stagg's Maroons that they received the worst defeat of the season, in fact of any season since 1917, from Northwestern in the game in which they played their best offensive football of the year to date.

Swept off their feet by Gustafson's 88 yard run for a touchdown from an opening kickoff, and by subsequent breaks which the inspired Purple utilized to full advantage until 31 points were acquired in fifteen minutes, the Maroons, instead of quitting, went gamely to their task and made an interesting contest, so far as a contest could be made interesting with such a one sided score already recorded.

It was an exhibition of pluck of which Maroon partisans should be proud. Northwestern outclassed Chicago, not as badly as the score indicated, but more than the first down statistics showed. Baker used splendid generalship. Purple partisans, if given their fondest wish, would not have asked a more satisfactory set of trimmings—or trimming—for the dedication of their new Dyche stadium than defeat of Chicago.

When Baker passed to Fisher for a point after touch down, many spectators wondered what it was all about. They had forgotten this play was included in the category after the rule change of a few years ago. At one time it was used not infrequently, but the place kick or drop kick is less risky. Its surprise contributed to success of the pass on this occasion.

At one time there was discussion of abolishing the point after touchdown. Michigan's victory over Ohio State, and Cornell's over Dartmouth were achieved by a lone point, a value for 23 all over the place to the evenness of their play otherwise. Possibly these results will start the arguments anew.

College Songs.
[Contributed by "Crissum Rambler."] Hard luck for poor old Eli, tough on the line. Now all together, smooch them and break through. 'Gaint the line of Crissum, Yale can't prevail. Three cheers for Harvard and down with Yale.

Football Retrosp.
In The Wake's Saturday forecast, we had 20 winners, 4 losers, and three games resulted in ties. Season to date: 192 winners, 48 losers, 16 ties.

Eckersall's Gossip of the Boxers

TIGER FLOWERS, the world's middleweight champion, and Sailor Huffman, who meet in the windup of the boxing show at the Coliseum Monday night, started on the final lap of preparation yesterday. Flowers will scale about 165 pounds when he steps into the ring, while Huffman will weigh about 173.

Flowers will remain in training following his bout with Huffman as he is scheduled to defend his title against Mickey Walker at the Coliseum Dec. 5. Walker will be here the latter part of the week to finish preparation.

Johnny Erickson, the New York flyweight, is training in Chicago for pending matches. Erickson has fought Irish Mickey Gill, Happy Aberton, and Teddy Baldwin.

Wildcats Get Day of Respite from Practice

The Northwestern university football regulars were given a day of rest yesterday as the second and third teams started drill for the Iowa game Saturday. The substitutes, nineteen of whom saw action in the final minutes of the Maroon game, were let off with fifty minutes of hard work. Even Coach Thistlethwaite was absent from drill.

Coaches Jack Ryan and Duke Dunne assumed command in Thistlethwaite's absence and the scrubs were sent through a short scrimmage, with special emphasis being placed upon blocking and tackling. The freshmen brushed up their knowledge of Hawkeye formations, which will be put into use against the varsity either tonight or tomorrow. Preventative measures against the antics of Cowboy Kutach also will be planned.

All the Wildcats came through the Maroon tussle in fine physical condition. Coach Jack Ryan injured a shoulder in last night's drill, requiring the services of Trainer Brady. The Northwestern student body plans to invade the Hawkeyes stronghold almost en masse, a special train having been chartered by the University Athletic association. The special will leave Saturday at 6 a. m. and return at midnight. The ticket sale on the special is open to the public.

Prep School Department.

600 DOGS IN SHOW SUNDAY

With an entry list of 600 dogs assured, the Western Specialty Club association will hold its annual show at the 16th street armory Sunday. Prize dogs from middle western and eastern states and Canada will be on display. This show is an annual affair staged by the Chicago Bulldog club, Chicago Collie club, Irish Terrier club, Chicago Western Boston Terrier club, Western French Bulldog club, Western Pekingese club, Western Pointer and Setter club, and Western Pomeranian club.

Annual cash value of cars sold in the United States is \$2,448,000,000, according to M. V. Ayers, of which \$2,448,000,000 worth are sold on payments. Only 54 per cent of this figure, or \$1,344,000,000, is the outstanding debt at one time. It is added, and neither panics nor business depressions have affected the payments.

Reeves, after outlining the advantages of installment plan buying for both the automobile manufacturer and the car owner, declared that 4,000,000 automobiles will be made in the United States this year, of which about 500,000 will be exported. President Wheeler pointed out that installment buying is general in building construction and that bankers are willing to back it in principle for the automobile industry. Yane added that, from a dealer standpoint, installment buying has created a vast field otherwise closed to the trade.

Chicago to St. Paul
Chicago to Minneapolis
Chicago to Duluth

Important Change in Time
Earlier departure from Chicago—Earlier arrival in the Twin Cities and Duluth.

THE NORTH AMERICAN now leaves Chicago at 10:00 p. m. instead of 10:30 p. m., arriving St. Paul 9:30 a. m., instead of 10:00 a. m., Minneapolis 10:05 a. m., instead of 10:35 a. m., Duluth 12:40 p. m., instead of 1:00 p. m., making convenient connections with morning trains leaving the Twin Cities. No change in schedules southward.

A fast, modern equipped train with observation-buffer lounge car, standard Pullman sleeping cars, reclining chair cars and coaches. Dining car service. This popular train provides fast, comfortable, overnight service via Milwaukee, and in addition to three other fast trains over the Chicago and North Western Railway.

TRICHONS
Scientific Hair Culture
FACTS
That Interest Men
A Message for Skeptical Men on Scientific Hair Growth

The majority of men, no doubt, are still skeptical about the possibility of again growing hair on partially or totally bald scalps—but we know they are skeptical only because of a lack of knowledge as to the progress made, and the definite results obtained through the known, scientific treatment of the scalp.

The successfully proven treatment method of which Trichons is the sole owner developed by research and application—is used in our treatments for the growing and restoration of hair.

The most definite results in the restoration of hair growth apply to men between 18 and 48 years of age.

Each case is carefully studied, diagnosed and individually treated (according to the conditions and requirements) by a well-trained organization—supplemented by a physician who is a member of the diagnostic staff.

An examination to determine the condition of your hair and scalp is given privately and entails no obligation.

Mr. Reginald deKoven (Anna Farwell) Is Visitor to Old Home

BY NANCY R.

Despite the general flurry which our Roman visitors are causing at the moment, Chicago's fashionable circles are finding time to welcome a charming and lovely guest, Mrs. Reginald deKoven. She is the former Anna Farwell of Chicago, the oldest daughter of the late Senator C. B. Farwell, and of Mrs. Robert McGinnis, whom she is visiting just now, in the Frank Farwell house which the McGinnises have leased for the winter. Mrs. deKoven was a noted beauty here in her day, and although the years have taken her far from her native haunts, she still keeps up her friendship with Chicago.

During her New York residence, Mrs. deKoven has a beautiful villa near Florence—it was there, I understand, that she did much of the writing for the recently published biography of her husband—where Chicagoites roaming in Italy are wont to pay their respects. Her ménage is not far from the delightful villa, to which Mrs. deKoven Lathrop repairs each winter, as was Mrs. Lathrop's guest, the day that Mrs. deKoven went to the dinner given last evening at the Chicago Club for the benefit of the Chicago Y. M. C. A. Mrs. Arthur Ryerson gave a luncheon there for her yesterday.

All indications to the contrary, there seems here for still other doings than those connected with Queen Marie. Her proof allow me to call to your attention the enterprising committee working out the entertainment for the corps of cadets and the brigade of midshipmen so soon to be here.

Mrs. Kellogg Fairbank, who has been devoting her moments of late to her majesty, is helping with ideas for the dinner dance to be given at the Drake by the city of Chicago, through the cooperation of the south park board, whose president is Edward J. Kelly. And understand that these plans are progressing rapidly.

Invitations to the party—beautiful, great engraved invitations bearing the name of the city of Chicago, West Point, and Annapolis—are to be posted tomorrow to the gayest and most attractive students, buds and business girls hereabouts. And George I. Dickson, chairman of arrangements for the hop, has urged me to explain that these hundreds of girls will be greeted at the Drake by a floor committee consisting of University of Chicago students, Northwestern students, and a group of the younger beaux of the town—this latter group being headed by "Fair" Carpenter, whose real name is Fairbank and who is the son of Benjamin Carpenter, which committee will present the evening cadets and midshipmen with that traditional formality so dear to the hearts of West Point and Annapolis men.

Day's News in Society

The wedding of Miss Margaret Hamilton, daughter of Mr. and Mrs. Nathan N. Ord of Chicago, and Edward T. Hamilton, son of Mr. and Mrs. T. Hamilton of Chicago, took place on Nov. 14 at the Chicago Union church, the Rev. Thomas G. Hamilton officiating. The bride was given away by her father, and the ceremony was assisted by the Rev. James Austin Richards. Mrs. N. L. Hamilton, sister of the bride, is to be maid of honor, and Miss Ruth Hamilton is to be bridesmaid. The bride's bridesmaids are Miss Virginia Kaake of DuSable, Miss Phoebe L. Sutherland of Winnetka, Miss Phoebe L. Sutherland of Winnetka, and Miss Phoebe L. Sutherland of Winnetka. The bride's bridesmaids are Miss Virginia Kaake of DuSable, Miss Phoebe L. Sutherland of Winnetka, Miss Phoebe L. Sutherland of Winnetka, and Miss Phoebe L. Sutherland of Winnetka.

Mr. and Mrs. William V. Kelley are moving from Lake Forest to this week to their apartment at 1550 State street. The Junior Friends of Art are to hold a meeting at 2 o'clock this afternoon at Miss Bertha Hies' studio in the Arts building.

Julia Howland of San Francisco has arrived in Chicago for a visit of a few weeks with her parents, Mr. and Mrs. George C. Howland of 104 Belmont place.

Mr. and Mrs. Albert F. Madener Jr. and Mr. and Mrs. John E. Drake Jr. are visiting the Frank O. Lowdens at their country place, Stillpoint Farm, near Oregon, Ill. Mrs. Madener was Miss Harriet Lowden, and Mrs. Drake was Miss Frances Lowden.

Mrs. Philip D. Armour III is to return this week from a stay in New York.

Mr. and Mrs. William A. P. Pullman of Lake Forest are being congratulated upon the birth on Friday last of a son at the Presbyterian hospital. Mrs. Pullman was formerly Miss Mabel Childs. She is the daughter of Mr. and Mrs. C. Frederick Childs of Lake Forest.

Clean Up For Thanksgiving!

Company for that Thanksgiving Dinner means a thorough house cleaning in advance.

Make everything spick and span—clean as a new penny and sweet as a pine forest—with LITTLE BO-PEEP AMMONIA. Will not roughen or redden hands. 100 daily household uses.

Let Business Girl Dress as She Pleases, Is Author's Plea

MARY BARTLETT DEERING, HEIRESS, DEAD IN HAWAII

(Chicago Tribune From Service.)
HONOLULU, Nov. 15.—Mrs. Mary Deering, first wife of the late Charles Deering, founder of the Deering Harvester company, died at her home here today after an operation on her tonsils. She was born in Peoria in 1867. Mary Wentworth Bartlett, daughter of the late Chicago capitalist, William H. Bartlett.

"I suppose it is because so many people think offices are inhospitable to women that they are always laying down rules about how women in them should act, and what they should wear, and how they should behave, and do without rouge. I cannot in any way explain to myself this impertinent interference with the lives of office women. Why should any one take it upon himself to give advice about such a matter? A girl who is able to earn her own living can be trusted to have sense enough to know what she ought to wear. And if she hasn't, it's her own affair—no one else's."

That's the way Helen Woodward feels about dress dictatorship in offices. She has written her feelings into a fascinating story of a business woman's career, "Through Many Windows" (Harper's). Miss Woodward started out as a bookkeeper, became a stenographer and eventually won a large measure of success in the advertising game.

She recounts the idea of a girl with nothing to do being permitted to doze herself any hour of the day in dress that is becoming, cool and the kind she feels best in, while the young business woman, who has a great deal to do, is not permitted to wear the kind of thing that pleases her best. "These people seem to expect women who work to become suddenly inhuman," she writes. "The long day is the best time most girls have to look pretty. Then why shouldn't they look as seductive and dangerous to men as they know how, during these important hours? If they should not do it at their work, then no woman should do it at any time. I don't see why it is more immoral for a girl to wear a sleeveless dress and a well-made up face at a typewriting desk than for other women to wear them at an evening dinner."

"By dressing up, either in clothes, or in cosmetics we women build a guard about ourselves. 'Se parer' means originally to guard, to defend one's self. Now it has come to mean to adorn one's self. We are armed for a fight which still remains harder for working women than for women of leisure."

Miss Woodward firmly believes the young office worker should consider her appearance as one of her assets, and enhance herself to the very best of her ability. With her tremendous faith in the young office woman, she is not fearful that she will be guilty of dress mistakes that would make her ridiculous in the business environment.

BEAUTY ANSWERS

MRS. J. G. IT IS DIFFICULT to restore a butt which has become flabby through nursing. Bathe your butt every day with cold salt water, and support the tissues with a suitable braiser. When the tissues are thus supported the circulation through the parts becomes more normal and the structures naturally become healthier. Massage ten or fifteen minutes every day with a fattening cream. This may be done at night. Then wear a light braisier during the night.

EMBARRASSING MOMENTS

Correcting a Guest.
I have been a teacher of English for some years. Accustomed, as I am, to correcting the mistakes of students in my high school classes, I find myself supplying the correct form almost automatically. It is this professional zeal that once led to an awkward situation.

During Christmas vacation last year I was entertaining a charming elderly woman, a neighbor, during my mother's absence. During the course of the conversation this woman remarked, "I have been reading the paper you got home last night."

And at once I absently said, "Saw, I saw it. It was not until I noticed the date was done at night. Then wear a light braisier during the night."

ROSEHILL MAUSOLEUM

Where Creed Is No Bar

"The true democracy of religion here at Rosehill Mausoleum has at times kept family ties from breaking," said the eminent Bishop as he stepped from the exquisite white marble and bronze family memorial room of a beloved friend.

"In what way?" his companion asked.

"Why, here no creed is ever a bar. Anyone, whatever his belief, may be given the important final services of his own church, in the full glory of their sacred import. Thus many families, divided upon the rock of religious differences, have happily united under this mighty, age-enduring protection the names and remains of every member. Such death defying unity is a strong bond of sympathy between the living family members."

To unite families for ages to come, through immortal Rosehill Mausoleum, is not just the privilege of a wealthy few. Those of most limited incomes may also participate. In the New Addition single crypts cost as low as \$450, family rooms \$6,500. All receive the same perpetual care from two mighty trust funds and an irrevocable State Charter. Your inquiry, which puts you under no obligation, will receive courteous personal consideration.

P. J. Carr Loses Fight for Life at Mercy Hospital—Queen of Roumania Finds Countryman in Gary Steel Mills

DEATH TAKES DEMOCRATIC LEADER—Patrick J. Carr, county treasurer and sheriff-elect, who died this morning. (Tribune Photo.) (Story on page 1.)

SISTER AND FRIENDS OFFER THEIR BLOOD IN EFFORT TO SAVE CARR. Left to right: Ald. Joseph B. McDonough and Mrs. William J. Graham, sister of Mr. Carr, from each of whom pint of blood was taken; Edward J. McCabe, private secretary, selected for the next transfusion of blood, if another had been made. (Tribune Photos.)

QUEEN MARIE ON HER WAY TO DINNER AT THE CASINO CLUB. The Roumanian monarch was the guest last night of the members of the executive committee of the local reception committee. The picture shows her just after entering her auto. (Tribune Photo.) (Story on page 1.)

QUEEN CHATS WITH FELLOW COUNTRYMAN AT MILLS. Marie of Roumania with Robert Arlet, 1608 Polk street, Gary, Ind., a crane man, who told her about steel mills. (Tribune Photo.) (Story on page 1.)

MAKES TRIP OF INSPECTION THROUGH STEEL WORKS AT GARY, IND. Queen Marie is shown talking to E. J. Buffington, president of the Illinois Steel company, who is at her right, and who acted as her guide through the mills. (Tribune Photo.) (Story on page 1.)

LUNCHEON AT COUNTRY CLUB FOLLOWS INSPECTION OF STEEL MILLS. Left to right: Francis Johnson, Princess Ileana, Charles J. Vopicka, former minister of U. S. to Balkan States; Queen Marie, Ira Nelson Morris, and unidentified woman. (Tribune Photo.) (Story on page 1.)

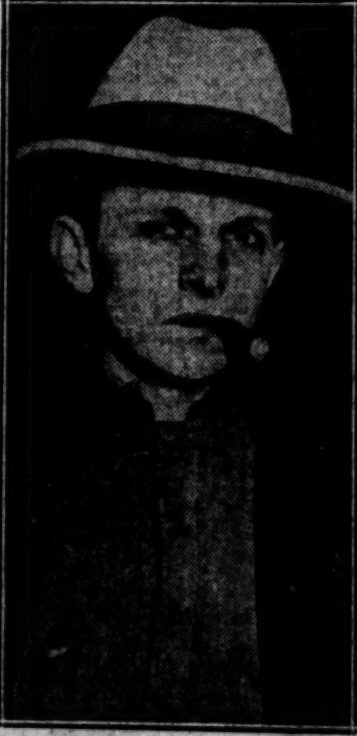

GIRL RESERVES OF Y. W. C. A. PRESENT PRINCESS WITH "CHEST OF TREASURES." Princess Ileana, who is the head of the girl reserves of the Y. W. C. A. in Roumania, receiving gift of Chicago girls from Miss Helen Duffell at West Side Y. W. C. A. (Tribune Photo.) (Story on page 1.)

PAYING A BRIEF VISIT TO THE UNIVERSITY OF CHICAGO. President Max Mason of the Midway institution escorting Queen Marie from reception which she attended after her luncheon at the South Shore Country club. (Tribune Photo.) (Story on page 1.)

CUTTING THE "QUEEN'S CAKE" AT CORDON CLUB PARTY. Mrs. Samuel Insull using a sword as a knife at entertainment given in her honor in the Fine Arts building last night. (Tribune Photo.)

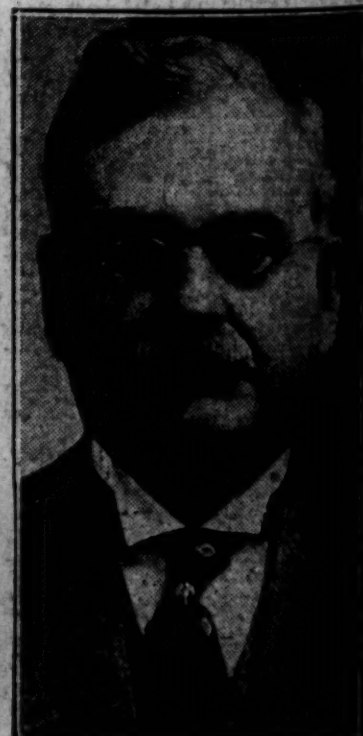

WOUNDS TWO ROBBERS. Benjamin Honeyman, guard, shoots men who attempt to hold up drug store. (Story on page 1.)

FORMER PROHIBITION OFFICIAL IS ACQUITTED. Maj. Percy Owen and Mrs. Owen happy after jury had cleared him of complicity in \$15,000,000 sacramental wine plot. (Story on page 1.)

ALSO ACQUITTED. State Senator Lowell B. Mason found not guilty in wine plot case. (Moffett Photo.)

EX-SENATOR DIES. Lafayette Young, Iowa editor, victim of heart disease. (Hartman Photo.)
